

potential hydrofluorocarbons, when feasible, from aerosol propellants or solvents under this contract. When determining feasibility of using a particular alternative, the Contractor shall consider environmental, technical, and economic factors such as—

- (1) In-use emission rates, energy efficiency;
- (2) Safety, such as flammability or toxicity;
- (3) Ability to meet technical performance requirements; and
- (4) Commercial availability at a reasonable cost.

(c) The Contractor shall refer to EPA's SNAP program to identify alternatives. The SNAP list of alternatives is found at 40 CFR part 82, subpart G, with supplemental tables available at <http://www.epa.gov/snap/>.  
(End of clause)

■ 20. Add section 52.223–21 to read as follows:

#### 52.223–21 Foams.

As prescribed in 23.804(d), insert the following clause:

#### Foams (June, 2016)

(a) *Definitions.* As used in this clause—  
*Global warming potential* means how much a given mass of a chemical contributes to global warming over a given time period compared to the same mass of carbon dioxide. Carbon dioxide's global warming potential is defined as 1.0.

*High global warming potential hydrofluorocarbons* means any hydrofluorocarbons in a particular end use for which EPA's Significant New Alternatives Policy (SNAP) program has identified other acceptable alternatives that have lower global warming potential. The SNAP list of alternatives is found at 40 CFR part 82, subpart G, with supplemental tables of alternatives available at <http://www.epa.gov/snap/>.

*Hydrofluorocarbons* means compounds that contain only hydrogen, fluorine, and carbon.

(b) Unless otherwise specified in the contract, the Contractor shall reduce its use, release, and emissions of high global warming potential hydrofluorocarbons and refrigerant blends containing hydrofluorocarbons, when feasible, from foam blowing agents, under this contract. When determining feasibility of using a particular alternative, the Contractor shall consider environmental, technical, and economic factors such as—

- (1) In-use emission rates, energy efficiency, and safety;
- (2) Ability to meet performance requirements; and
- (3) Commercial availability at a reasonable cost.

(c) The Contractor shall refer to EPA's SNAP program to identify alternatives. The SNAP list of alternatives is found at 40 CFR part 82, subpart G, with supplemental tables available at <http://www.epa.gov/snap/>.

### Federal Acquisition Regulation: Simplified Acquisition Threshold for Overseas Acquisitions in Support of Humanitarian or Peacekeeping Operations

**AGENCY:** Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Final rule.

**SUMMARY:** DoD, GSA, and NASA are issuing a final rule to amend the Federal Acquisition Regulation (FAR) to implement a section of U.S. Code which establishes a higher simplified acquisition threshold for overseas acquisitions in support of humanitarian or peacekeeping operations.

**DATES:** Effective June 15, 2016.

**FOR FURTHER INFORMATION CONTACT:** Ms. Camara Francis, Procurement Analyst, at 202–550–0935, for clarification of content. For information pertaining to status or publication schedules, contact the Regulatory Secretariat Division at 202–501–4755. Please cite FAC 2005–88, FAR Case 2015–020.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

DoD, GSA, and NASA published a proposed rule in the **Federal Register** at 80 FR 60832 on October 8, 2015, soliciting public comments on this rule, drafted to implement 41 U.S.C. 153, which establishes a higher simplified acquisition threshold (SAT) for overseas acquisitions in support of humanitarian or peacekeeping operations. FAR Case 2003–022 was published in the **Federal Register** as an interim rule at 69 FR 8312, on February 23, 2004, and as a final rule published at 69 FR 76350, on December 20, 2004. Drafters of that rule had revised the definition for SAT contained at FAR 2.101: Definitions, but had also inadvertently deleted the reference to overseas humanitarian or peacekeeping missions and the requisite doubling of the SAT in those circumstances. The civilian statute at the time was numbered 41 U.S.C. 259(d)(1); it is now at 41 U.S.C. 153. The

purpose of this rule is to reinstate the increased SAT for overseas acquisitions for peacekeeping or humanitarian operations. Conforming changes are made in FAR parts 4, 13, 18, and 19.

One public comment was received.

##### II. Discussion and Analysis

The Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (the Councils) reviewed the public comment in development of the final rule.

##### A. Summary of Significant Changes

There were no changes made to the rule as a result of the comment received. There were no comments on the Initial Regulatory Flexibility Analysis.

##### B. Analysis of Public Comments

*Comment:* One respondent stated that the FAR definition of simplified acquisition needed to clarify that construction is included as part of supplies or services in a contingency environment, noting that construction projects are very important to contingency operations. The respondent indicated that contracting professionals generally understand that the FAR covers two broad categories of acquisition: Supplies and services. Services include everything that is not a commodity (supplies), and is therefore inclusive of construction, which is a type of service.

*Response:* The Councils appreciate the comment and acknowledge the broad understanding that services are inclusive of construction services.

##### III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

##### IV. Regulatory Flexibility Act

DoD, GSA and NASA have prepared a Final Regulatory Flexibility Analysis (FRFA) consistent with the Regulatory

Flexibility Act 5 U.S.C. 601, *et seq.* The FRFA is summarized as follows:

The final rule, in order to implement 41 U.S.C. 153, sets forth a higher simplified acquisition threshold (SAT) for overseas acquisitions in support of humanitarian or peacekeeping operations.

There were no significant issues raised by the public in response to the Initial Regulatory Flexibility Analysis provided in the proposed rule.

The rule applies only to overseas acquisitions in support of humanitarian or peacekeeping operations. In Fiscal Year 2014, 1545 awards were made in support of humanitarian or peacekeeping operations, and 585 (37.86 percent) of those were to small businesses. Additionally, only 81 (5.24 percent) of the awards were valued between the former threshold of \$150,000 and the new threshold of \$300,000. Therefore, it is not anticipated that this rule will have a significant economic impact on small businesses.

Interested parties may obtain a copy of the FRFA from the Regulatory Secretariat Division. The Regulatory Secretariat Division has submitted a copy of the FRFA to the Chief Counsel for Advocacy of the Small Business Administration.

#### V. Paperwork Reduction Act

This rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

#### Federal Acquisition Regulation; Basic Safeguarding of Contractor Information Systems

**AGENCY:** Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Final rule.

**SUMMARY:** DoD, GSA, and NASA are issuing a final rule amending the Federal Acquisition Regulation (FAR) to add a new subpart and contract clause for the basic safeguarding of contractor information systems that process, store or transmit Federal contract information. The clause does not relieve the contractor of any other specific safeguarding requirement specified by Federal agencies and departments as it relates to covered contractor information systems generally or other Federal requirements for safeguarding Controlled Unclassified Information (CUI) as established by Executive Order (E.O.). Systems that contain classified information, or CUI such as personally identifiable information, require more than the basic level of protection.
