Regulation Project Number: REG–101896–09, REG–102988–11, REG–154563–12, and REG–143040–14.

Abstract: The final regulations under section 6045 provide rules on basis reporting by brokers for transactions involving covered securities, including debt instruments and options. The final regulations under section 6045A provide reporting rules that apply upon a transfer of a covered security from one broker to another broker. These final regulations under sections 6045 and 6045A reflect changes in the law made by the Energy Improvement and Extension Act of 2008, Division B of Public Law 110–343 (122 Stat. 3765, 3854 (2008)), that require brokers when reporting the sale of a covered security to the IRS to include the customer's adjusted basis in the sold securities and to classify any gain or loss as long-term or short-term. The information collected for covered securities under § 1.6045–1, including § 1.6045–1(c)(3)(xi)(C) (relating to short sales), and § 1.6045A–1 allows a broker who effects a sale of a transferred covered security, including a debt instrument or option, to determine and report the adjusted basis of the security and whether any gain or loss with respect to the sale is ordinary (for certain debt instruments), long-term, or short-term in compliance with section 6045(g) of the Internal Revenue Code. The information collected under § 1.6045–1(n)(5) relates to information required to be reported by the holder of a debt instrument to a broker for certain holder elections that affect how the debt instrument's basis is computed, which will enable the broker to comply with its reporting obligations under section 6045(g).

Estimated Number of Respondents: 79,000.
