**SUPPLEMENTARY INFORMATION:**

The Biomass Research and  
Development Act of 2000 (Biomass Act)  
[Pub. L. 106-224] requires cooperation  
and coordination in biomass research  
and development (R&D) between the  
U.S. Department of Agriculture (USDA)  
and U.S. Department of Energy (DOE).  
The Biomass Act was repealed in June  
2008 by section 9008 of the Food,  
Conservation and Energy Act of 2008  
(FCEA) [Pub. L. 110-246, 122 Stat. 1651,  
enacted June 18, 2008, H.R. 6124]. The  
Biomass Act was re-authorized in the  
Agricultural Act of 2014.

FCEA section 9008(d) established the  
Biomass Research and Development  
Technical Advisory Committee and lays  
forth its meetings, coordination, duties,  
terms, and membership types.

Committee members are paid travel and  
per diem for each meeting. The  
Committee must meet quarterly and  
should not duplicate the efforts of other  
Federal advisory committees. Meetings  
are typically two days in duration.  
Three meetings are held in the  
Washington DC area and the fourth is  
held at a site to be determined each  
year. The Committee advises DOE and  
USDA points of contact with respect to  
the Biomass R&D Initiative (Initiative)  
and priority technical biomass R&D  
needs and makes written  
recommendations to the Biomass R&D  
Board (Board). Those recommendations  
regard whether: (A) Initiative funds are  
distributed and used consistent with  
Initiative objectives; (B) solicitations are  
open and competitive with awards  
made annually; (C) objectives and  
evaluation criteria of the solicitations  
are clear; and (D) the points of contact  
are funding proposals selected on the  
basis of merit, and determined by an  
independent panel of qualified peers.

The committee members may serve  
two, three-year terms and committee  
membership must include: (A) An  
individual affiliated with the biofuels  
industry; (B) an individual affiliated  
with the biobased industrial and  
commercial products industry; (C) an  
individual affiliated with an institution  
of higher education that has expertise in  
biofuels and biobased products; (D) two  
prominent engineers or scientists from  
government (non-federal) or academia  
that have expertise in biofuels and  
biobased products; (E) an individual  
affiliated with a commodity trade  
association; (F) two individuals  
affiliated with environmental or  
conservation organizations; (G) an  
individual associated with state  
government who has expertise in  
biofuels and biobased products; (H) an  
individual with expertise in energy and  
environmental analysis; (I) an  
individual with expertise in the  
economics of biofuels and biobased  
products; (J) an individual with  
expertise in agricultural economics; (K)  
an individual with expertise in plant  
biology and biomass feedstock  
development; (L) an individual with  
expertise in agronomy, crop science, or  
soil science; and (M) at the option of the  
points of contact, other members (REF:  
FCEA 2008 section 9008(d)(2)(A)). All  
nominees will be carefully reviewed for  
their expertise, leadership, and  
relevance to an expertise. Appointments

will be made for three-year terms, as dictated by the legislation.

Nominations this year are needed for the following categories in order to address the Committee's needs: (E) An individual affiliated with a commodity trade association; and (J) an individual with expertise in agricultural economics. Nominations for other categories will also be accepted. Nomination categories C, D, H, I, J, K, L, and M are considered special Government employees and require submittal of an annual financial disclosure form. In addition to the required categories, other areas of expertise of interest to the Committee are individuals with expertise in process engineering related to biorefineries, or biobased coproducts that enable fuel production.

Nominations are solicited from organizations, associations, societies, councils, federations, groups, universities, and companies that represent a wide variety of biomass research and development interests throughout the country. In your nomination letter, please indicate the specific membership category of interest. Each nominee must submit their resume and biography along with any letters of support by the deadline above. If you were nominated in previous years, but were not appointed to the committee and would still like to be considered, please submit your nomination package again in response to this Notice with all required materials. All nominees will be vetted before selection.

Nominations are open to all individuals without regard to race, color, religion, sex, national origin, age, mental or physical handicap, marital status, or sexual orientation. To ensure that recommendations of the Technical Advisory Committee take into account the needs of the diverse groups served by DOE, membership shall include (to the extent practicable), minorities, women, and persons with disabilities. Please note that registered lobbyists serving in an "individual capacity," individuals already serving another Federal Advisory Committee and Federal employees are ineligible for nomination.

Appointments to the Biomass Research and Development Technical Advisory Committee will be made by the Secretary of Energy and the Secretary of Agriculture.

Issued in Washington, DC, on May 19, 2016.

**Abstract:** In response to the FY2008 Consolidated Appropriations Act (H.R. 2764; Pub. L. 110-161) and under authority of the Clean Air Act, the EPA finalized the Mandatory Reporting of Greenhouse Gases Rule (GHG Reporting Rule) (74 FR 56260; October 30, 2009). The GHG Reporting Rule, which became effective on December 29, 2009, establishes reporting requirements for certain large facilities and suppliers. It does not require control of greenhouse gases. Instead, it requires that sources emitting above certain threshold levels of carbon dioxide equivalent (CO<sub>2</sub>e) monitor and report emissions.

Subsequent rules have promulgated requirements for additional facilities, suppliers, and mobile sources; provided clarification and corrections to existing requirements; finalized confidentiality business information (CBI) determinations, amended recordkeeping requirements, and implemented an alternative verification approach. Collectively, the GHG Reporting Rule and its associated rulemakings are referred to as the Greenhouse Gas Reporting Program (GHGRP).

The purpose for this ICR is to renew and revise the GHG Reporting Rule ICR to update the burden and cost imposed by the current ICR under the GHGRP.

**Form Numbers:** None.

**Respondents/affected entities:** The respondents in this information collection include owners and operators of facilities that must report their GHG emissions and other data to EPA to comply with the rulemaking. To facilitate the analysis, EPA has divided
