Project: 2017 National Survey on Drug Use and Health (OMB No. 0930-0110)—Revision

The National Survey on Drug Use and Health (NSDUH) is a survey of the U.S. civilian, non-institutionalized population aged 12 years old or older. The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, the Office of National Drug Control Policy (ONDCP), Federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources.

While NSDUH must be updated periodically to reflect changing substance use and mental health issues and to continue producing current data, for the 2017 NSDUH only the following minor changes are planned: (1) Updated questions so respondents who report no use of alcohol are not asked about misuse of prescription drugs with alcohol; and (2) included other minor wording changes to improve the flow of the interview, increase respondent comprehension or to be consistent with text in other questions.

As with all NSDUH/NHSDA¹ surveys conducted since 1999, the sample size of the survey for 2017 will be sufficient to permit prevalence estimates for each of the fifty States and the District of Columbia. The total annual burden estimate is shown below in Table 1.

TABLE 1—ANNUALIZED ESTIMATED BURDEN FOR 2017 NSDUH

Instrument	Number of respondents	Responses per respondent	Total number of responses	Hours per response	Total burden hours
Household Screening	131,983	1	131,983	0.083	10,955
Interview	67,507	1	67,507	1.000	67,507
Screening Verification	3,755	1	3,755	0.067	252
Interview Verification	10,126	1	10,126	0.067	678
Total	131,983	213,371	79,932

Written comments and recommendations concerning the proposed information collection should be sent by June 27, 2016 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov. Although commenters are encouraged to send their comments via email,

commenters may also fax their comments to: 202-395-7285. Commenters may also mail them to: Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, Room 10102, Washington, DC 20503.

III. Background

Under 33 CFR 155.1015 and 155.5015, vessel response plans (VRPs) are required to cover all navigable waters of the U.S. in which a vessel operates. Several areas under U.S. jurisdiction do not have sufficient resources to meet the national planning criteria prescribed under 33 CFR part 155, Appendix B. In remote areas where typical response resources are not available, or the available commercial resources do not meet the national planning criteria, a vessel owner or operator may request that the Coast Guard accept an Alternative Planning Criteria (APC).

In August 2009, the Coast Guard published CG-543 Policy Letter 09-02, "Industry Guidelines for Requesting Alternate Planning Criteria Approval, One Time Waivers and Interim Operating Authorization." The purpose of Policy Letter 09-02, was to provide guidance to the maritime industry in applying for an APC pursuant to 33 CFR 155.1065(f).

In September 2013, the Coast Guard published regulations (78 FR 60124) requiring NTVs over 400 gross tons to submit VRPs, which made the national planning criteria in 33 CFR part 155 applicable to thousands of additional vessels across the U.S., including geographic areas with limited commercially available response resources. Over time, it became apparent that additional guidance would be useful in addressing

compliance issues that had developed from the promulgation of the nontank vessel (NTV) Final Rule.

In 2015, Coast Guard DL 7 published a draft Marine Safety Information Bulletin (MSIB) that provided guidance for APC submissions and expectations within Alaskan waters, with a focus on NTV traffic. DL 7 received a multitude of comments from various sectors of the maritime industry on the draft MSIB. By this time, the Coast Guard determined it would be best to update the national APC guidance rather than singularly focusing on APC guidelines specific to Alaska. The comments received on DL 7's MSIB were strongly considered by the Coast Guard during the development of the revised APC national guidance now being published for public comment.

IV. Public Comment of APC Guidelines

The draft APC Guidelines may be amended by the Coast Guard, as appropriate, based upon public comment on this **Federal Register** notice.

This notice is issued under the authority of 5 U.S.C. 552 (a).

Dated: May 23, 2016.

J.B. Loring,

Captain, U.S. Coast Guard, Chief, Office of Marine Environmental Response Policy.
