

recommendation by the Trade, Tax Policy, and Export Growth Subcommittee focused on trade enforcement policies and China Bilateral Investment Treaty. The final agenda will be posted on the Department of Commerce Web site for the Council at <http://www.trade.gov/manufacturingcouncil/>, at least one week in advance of the meeting.

**DATES:** Wednesday, June 15, 12:00 p.m.–1:00 p.m. The deadline for members of the public to register, including requests to make comments during the meeting and for auxiliary aids, or to submit written comments for dissemination prior to the meeting, is 5 p.m. EDT on June 8, 2016.

**ADDRESSES:** The meeting will be held by conference call. The call-in number and passcode will be provided by email to registrants. Requests to register (including to speak or for auxiliary aids) and any written comments should be submitted to: U.S. Manufacturing Council, U.S. Department of Commerce, Room 4043, 1401 Constitution Avenue NW., Washington, DC 20230; email: [archana.sahgal@trade.gov](mailto:archana.sahgal@trade.gov). Members of the public are encouraged to submit registration requests and written comments via email to ensure timely receipt.

**FOR FURTHER INFORMATION CONTACT:** Archana Sahgal, U.S. Manufacturing Council, Room 4043, 1401 Constitution Avenue NW., Washington, DC, 20230, telephone: 202-482-4501, email: [archana.sahgal@trade.gov](mailto:archana.sahgal@trade.gov).

**SUPPLEMENTARY INFORMATION:**

*Background:* The Council advises the Secretary of Commerce on matters relating to the U.S. manufacturing industry.

*Public Participation:* The meeting will be open to the public and will be accessible to people with disabilities. All guests are required to register in advance by the deadline identified under the **DATES** caption. Requests for auxiliary aids must be submitted by the registration deadline. Last minute requests will be accepted, but may be impossible to fill. There will be fifteen (15) minutes allotted for oral comments from members of the public joining the call. To accommodate as many speakers as possible, the time for public comments may be limited to three (3) minutes per person. Individuals wishing to reserve speaking time during the meeting must submit a request at the time of registration, as well as the name and address of the proposed speaker. If the number of registrants requesting to make statements is greater than can be reasonably accommodated during the meeting, the International Trade

Administration may conduct a lottery to determine the speakers. Speakers are requested to submit a written copy of their prepared remarks by 5:00 p.m. EDT on June 8, 2016, for inclusion in the meeting records and for circulation to the members of the U.S. Manufacturing Council.

In addition, any member of the public may submit pertinent written comments concerning the Council's affairs at any time before or after the meeting. Comments may be submitted to Archana Sahgal at the contact information indicated above. To be considered during the meeting, comments must be received no later than 5:00 p.m. EDT on June 8, 2016, to ensure transmission to the Council prior to the meeting. Comments received after that date and time will be distributed to the members but may not be considered on the call. Copies of Council meeting minutes will be available within 90 days of the meeting.

Dated: May 25, 2016.

**Archana Sahgal,**

*Executive Secretary, U.S. Manufacturing Council.*

**BILLING CODE 3510-DR-P**

**DEPARTMENT OF COMMERCE**

**National Institute of Standards and Technology**

[Docket No.: 160429381-6381-01]

**National Cybersecurity Center of Excellence Data Integrity Building Block**

**AGENCY:** National Institute of Standards and Technology, Department of Commerce.

**ACTION:** Notice.

**SUMMARY:** The National Institute of Standards and Technology (NIST) invites organizations to provide products and technical expertise to support and demonstrate security platforms for the Data Integrity Building Block. This notice is the initial step for the National Cybersecurity Center of Excellence (NCCoE) in collaborating with technology companies to address cybersecurity challenges identified under the Data Integrity Building Block. Participation in the Data Integrity Building Block is open to all interested organizations.

**DATES:** Interested parties must contact NIST to request a letter of interest template to be completed and submitted to NIST. Letters of interest will be accepted on a first come, first served

basis. Collaborative activities will commence as soon as enough completed and signed letters of interest have been returned to address all the necessary components and capabilities, but no earlier than July 1, 2016. When the Data Integrity Building Block has been completed, NIST will post a notice on the NCCoE Data Integrity Building Block Web site at [https://nccoe.nist.gov/projects/building\\_blocks/data\\_integrity](https://nccoe.nist.gov/projects/building_blocks/data_integrity) announcing the completion of the Data Integrity Building Block and informing the public that it will no longer accept letters of interest for this Data Integrity Building Block.

**ADDRESSES:** The NCCoE is located at 9700 Great Seneca Highway, Rockville, MD 20850. Letters of interest must be submitted to [di-nccoe@nist.gov](mailto:di-nccoe@nist.gov) or via hardcopy to National Institute of Standards and Technology, NCCoE; 9700 Great Seneca Highway, Rockville, MD 20850. Organizations whose letters of interest are accepted in accordance with the process set forth in the **SUPPLEMENTARY INFORMATION** section of this notice will be asked to sign a Cooperative Research and Development Agreement (CRADA) with NIST. A CRADA template can be found at: <https://nccoe.nist.gov/library/nccoe-consortium-crada-example>.

**FOR FURTHER INFORMATION CONTACT:** Don Tobin via email to [donald.tobin@nist.gov](mailto:donald.tobin@nist.gov), by telephone 301-975-0239, or by mail to National Institute of Standards and Technology, NCCoE; 9700 Great Seneca Highway, Rockville, MD 20850. Additional details about the Data Integrity Building Block are available at [https://nccoe.nist.gov/projects/building\\_blocks/data\\_integrity](https://nccoe.nist.gov/projects/building_blocks/data_integrity).

**SUPPLEMENTARY INFORMATION:**

**Background**

The NCCoE, part of NIST, is a public-private collaboration for accelerating the widespread adoption of integrated cybersecurity tools and technologies. The NCCoE brings together experts from industry, government, and academia under one roof to develop practical, interoperable cybersecurity approaches that address the real-world needs of complex Information Technology (IT) systems. By accelerating dissemination and use of these integrated tools and technologies for protecting IT assets, the NCCoE will enhance trust in U.S. IT communications, data, and storage systems; reduce risk for companies and individuals using IT systems; and encourage development of innovative, job-creating cybersecurity products and services.

## Process

NIST is soliciting responses from all sources of relevant security capabilities (see below) to enter into a Cooperative Research and Development Agreement (CRADA) to provide products and technical expertise to support and demonstrate security platforms for the Data Integrity Building Block. The full Data Integrity Building Block can be viewed at: [https://nccoe.nist.gov/projects/building\\_blocks/data\\_integrity](https://nccoe.nist.gov/projects/building_blocks/data_integrity).

Interested parties should contact NIST using the information provided in the **FOR FURTHER INFORMATION CONTACT** section of this notice. NIST will then provide each interested party with a letter of interest template, which the party must complete, certify that it is accurate, and submit to NIST. NIST will contact interested parties if there are questions regarding the responsiveness of the letters of interest to the Data Integrity Building Block objective or requirements identified below. NIST will select participants who have submitted complete letters of interest on a first come, first served basis within each category of product components or capabilities listed below up to the number of participants in each category necessary to carry out this Data Integrity Building Block. However, there may be continuing opportunity to participate even after initial activity commences. Selected participants will be required to enter into a consortium CRADA with NIST (for reference, see **ADDRESSES** section above). NIST published a notice in the **Federal Register** on October 19, 2012 (77 FR 64314) inviting U.S. companies to enter into National Cybersecurity Excellence Partnerships (NCEPs) in furtherance of the NCCoE. For this demonstration project, NCEP partners will not be given priority for participation.

## Data Integrity Building Block Objective

The goal of this project is to mitigate the impacts of data corruption when recovering systems from backup storage. The solution will provide guidance for incorporating post-attack data corruption detection and recovery strategies into a corporate IT architecture. The project will explore methods to address the integrity of commodity components (operating systems, applications, and software configurations), custom applications, and data (database and files) and provide corruption indicators and activity logs to the security analysts to identify the malicious activity. It will produce an architecture that includes components that will integrate notification of data corruption events

coupled with approaches to automate recovery from such events.

A detailed description of the Data Integrity Building Block is available at: [https://nccoe.nist.gov/projects/building\\_blocks/data\\_integrity](https://nccoe.nist.gov/projects/building_blocks/data_integrity).

## Requirements

Each responding organization's letter of interest should identify which security platform component(s) or capability(ies) it is offering. Letters of interest should not include company proprietary information, and all components and capabilities must be commercially available. Components are listed in the High-level Architecture section of the Data Integrity Building Block (for reference, please see the link in the PROCESS section above) and include, but are not limited to:

- File integrity monitors
- File versioning systems
- File integrity testing capabilities
- User activity monitoring tools
- Configuration management systems
- Database rollback tools
- Virtual machine integrity/snapshots/versioning capabilities
- Versioning file systems
- Journaling file systems

Each responding organization's letter of interest should identify how their products address one or more of the following desired solution characteristics in the High Level Architecture section of the Data Integrity Building Block (for reference, please see the link in the PROCESS section above):

- Automated data corruption testing
- Automated data corruption detection
- Automated data corruption event logging
- Secure data integrity monitoring and alerting information (checksums, off-site, hard-copy)
- Automated detection and reporting of all file modifications/creations/deletions
- Automated detection and reporting of all database modifications/creations/deletions
- Automated correlation of file changes and users
- Automated user activity recording
- Automated anomalous user activity detection
- Automated configuration management monitoring

Responding organizations need to understand and, in their letters of interest, commit to provide:

1. Access for all participants' project teams to component interfaces and the organization's experts necessary to make functional connections among security platform components

2. Support for development and demonstration of the Data Integrity Building Block in NCCoE facilities which will be conducted in a manner consistent with Federal requirements (e.g., FIPS 200, FIPS 201, SP 800-53, and SP 800-63)

Additional details about the Data Integrity Building Block are available at: [https://nccoe.nist.gov/projects/building\\_blocks/data\\_integrity](https://nccoe.nist.gov/projects/building_blocks/data_integrity).

NIST cannot guarantee that all of the products proposed by respondents will be used in the demonstration. Each prospective participant will be expected to work collaboratively with NIST staff and other project participants under the terms of the consortium CRADA in the development of the Data Integrity Building Block. Prospective participants' contribution to the collaborative effort will include assistance in establishing the necessary interface functionality, connection and set-up capabilities and procedures, demonstration harnesses, environmental and safety conditions for use, integrated platform user instructions, and demonstration plans and scripts necessary to demonstrate the desired capabilities. Each participant will train NIST personnel, as necessary, to operate its product in capability demonstrations. Following successful demonstrations, NIST will publish a description of the security platform and its performance characteristics sufficient to permit other organizations to develop and deploy security platforms that meet the security objectives of the Data Integrity Building Block. These descriptions will be public information.

Under the terms of the consortium CRADA, NIST will support development of interfaces among participants' products by providing IT infrastructure, laboratory facilities, office facilities, collaboration facilities, and staff support to component composition, security platform documentation, and demonstration activities.

The dates of the demonstration of the Data Integrity Building Block capability will be announced on the NCCoE Web site at least two weeks in advance at <http://nccoe.nist.gov/>. The expected outcome of the demonstration is to improve data integrity within the enterprise. Participating organizations will gain from the knowledge that their products are interoperable with other participants' offerings.

For additional information on the NCCoE governance, business processes, and NCCoE operational structure, visit

the NCCoE Web site <http://nccoe.nist.gov/>.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

**RIN 0648-XE221**

#### Endangered and Threatened Species; Take of Anadromous Fish

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Issuance of one enhancement of survival permit.

**SUMMARY:** Notice is hereby given that NMFS has issued Permit 20032 to Sonoma County Water Agency.

**ADDRESSES:** The application, issued permit, and supporting documents are available upon written request or by appointment: California Coastal Office, NMFS, 777 Sonoma Avenue, Room 325, Santa Rosa, CA 95404, ph: (707)-387-0737, fax: (707) 578-3435).

**FOR FURTHER INFORMATION CONTACT:** Dan Wilson, Santa Rosa, CA (ph.: 707-578-8555, Fax: 707-578-3435, email: [dan.wilson@noaa.gov](mailto:dan.wilson@noaa.gov)).

#### SUPPLEMENTARY INFORMATION:

The issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) (ESA), is based on a finding that such permits/modifications: (1) Are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations (50 CFR parts 222-226) governing listed fish and wildlife permits.

#### Species Covered in This Notice

The following listed species are covered in this notice:

Threatened California Coastal (CC) Chinook salmon (*Oncorhynchus tshawytscha*), Endangered Central California Coast (CCC) Coho salmon (*O. kisutch*), and

Threatened CCC Steelhead (*O. mykiss*).

#### Permits Issued

##### Permit 20032

A notice of receipt of an application for an enhancement of survival permit (20032) was published in the **Federal Register** on November 18, 2015 (80 FR 72047). Permit 20032 was issued to the Permit Holder, Sonoma County Water Agency, on March 3, 2016, and expires on March 3, 2051.

Permit 20032 facilitates the implementation of the Dry Creek Valley Programmatic Safe Harbor Agreement (Agreement) that is expected to promote the recovery of the Covered Species on non-federal properties within Dry Creek below Warm Springs Dam, a tributary to the Russian River in Sonoma County, California. The duration of the Agreement and Permit 20032 is 35 years.

Permit 20032 authorizes the incidental taking of the Covered Species associated with routine viticulture activities and the potential future return of any property included in the Agreement to the Elevated Baseline Condition. Under this Agreement, individual landowners (Cooperators) may include their properties by entering into a Cooperative Agreement with the Permit Holder. Each Cooperative Agreement will specify the restoration and/or enhancement, and management activities to be carried out on that specific property and a timetable for implementing those activities. All Cooperative Agreements will be reviewed by NMFS to determine whether the proposed activities will result in a net conservation benefit for the Covered Species and meet all required standards of the Safe Harbor Policy (64 FR 32717). Upon NMFS approval, the Permit Holder will issue a Certificate of Inclusion to the Cooperator. Each Certificate of Inclusion will extend the incidental take coverage conferred by the Enhancement of Survival permit to the Cooperator. Certificates of Inclusion will be valid for a minimum of 10 years, but no longer than the term of Permit 20032. The Agreement requires that each enrolled property adopt an Elevated Baseline Condition. Elevated Baseline levels for the Covered Species will be determined by completing the Elevated Baseline Habitat Worksheet (Table 1 in Attachment 3 of the Agreement), which will be completed by the Permit Holder. NMFS will review each Elevated Baseline determination prior to the Permit Holder issuing a Certificate of Inclusion to the Cooperator. The

Agreement also contains a monitoring component that requires the Permit Holder to ensure that the Cooperators are in compliance with the terms and conditions of the Agreement, and that the Elevated Baseline levels of habitat for the Covered Species occur on the Enrolled Property. Results of these monitoring efforts will be provided to NMFS by the Permit Holder in annual reports for the duration of the 35-year permit term.

Permit 20032 authorizes those Cooperators who have been issued a Certificate of Inclusion to take Covered Species incidental to the implementation of the management activities specified in the Agreement, incidental to other lawful uses of the property including routine viticulture activities, and to return to Elevated Baseline Conditions if desired.

Dated: May 26, 2016.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

**RIN 0648-XE468**

#### Takes of Marine Mammals Incidental to Specified Activities; Seabird and Pinniped Research Activities in Central California, 2016-2017

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; issuance of an incidental harassment authorization.

**SUMMARY:** In accordance with the Marine Mammal Protection Act (MMPA) regulations, we hereby give notification that the National Marine Fisheries Service (NMFS) has issued an Incidental Harassment Authorization (IHA) to Point Blue Conservation Science (Point Blue), to take marine mammals, by Level B harassment, incidental to conducting seabird and pinniped research activities in central California, May, 2016 through May, 2017.

**DATES:** Effective May 16, 2016 through May 15, 2017.

**ADDRESSES:** The public may obtain an electronic copy of the Point Blue's application, supporting documentation, the authorization, and a list of the
