Subject merchandise also includes corrosion-resistant steel that has been further processed in a third country, including but not limited to annealing, tempering, painting, varnishing, trimming, cutting, punching and/or slitting or any other processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the in-scope corrosion resistant steel.

All products that meet the written physical description, and in which the chemistry quantities do not exceed any one of the noted element levels listed above, are within the scope of this investigation unless specifically excluded. The following products are outside of and/or specifically excluded from the scope of this investigation:

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* June 2, 2016.

FOR FURTHER INFORMATION CONTACT: Yang Jin Chun or Andre Gziryan, AD/CVD Operations Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–5760 and (202) 482–2201, respectively.

SUPPLEMENTARY INFORMATION:

Background

On February 18, 2016, the Department of Commerce (the Department) initiated the antidumping duty investigation of truck and bus tires from the People’s Republic of China.¹ The *Initiation Notice* stated that the Department would issue its preliminary determination for this investigation no later than 140 days after the date of the initiation in accordance with section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.205(b)(1), unless postponed.²

² *Id.*, 81 FR at 9438.

Period of Investigation

The period of investigation is July 1, 2015, through December 31, 2015.

Postponement of Preliminary Determination

Section 733(c)(1)(A) of the Act permits the Department to postpone the time limit for the preliminary determination if it receives a timely request from the petitioner for postponement. The Department may postpone the preliminary determination under section 733(c)(1) of the Act no later than 190 days after the date on which the administering authority initiates an investigation.

On May 20, 2016, United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL–CIO, CLC (the petitioner) made a timely request under 19 CFR 351.205(e) for a 50-day postponement of the preliminary determination of this investigation.³ The petitioner states that a postponement is necessary given a very large number of separate rate applications and the need for additional time to analyze responses from the two selected respondents.⁴

For the reasons stated above, and because there are no compelling reasons to deny the petitioner’s request, the Department is fully postponing the preliminary determination of this investigation in accordance with section 733(c)(1)(A) of the Act and 19 CFR 351.205(b)(2) and (e) to August 26, 2016. The deadline for the final determination will continue to be 75 days after the date of the preliminary determination, unless extended.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: May 26, 2016.

Assistant Secretary For Enforcement and Compliance.

following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Quantitative Assessment of Spatially-Explicit Social Values Relative to Wind Energy Areas: Outer Continental Shelf Offshore North Carolina.

OMB Control Number: 0648–xxxx.

Form Number(s): None.

Type of Request: Regular (request for a new information collection).

Number of Respondents: 3,225 (300 for a pretest; 2,925 for the final survey).

Average Hours per Response: 20 minutes.

Burden Hours: 1,075.

Needs and Uses: This request is for a new information collection.

Pursuant to the Outer Continental Shelf Land Act, the National Environmental Policy Act and the Coastal Zone Management Act, this request is for a new data collection to benefit the National Oceanic and Atmospheric Administration (NOAA), Bureau of Ocean Energy Management (BOEM), and policy-makers on the state and local level in North Carolina. BOEM has identified three wind energy areas for potential development on the outer continental shelf of North Carolina. The National Ocean Service (NOS) proposes to collect data on the knowledge, beliefs, social values, and attitudes of North Carolina and South Carolina residents relative to marine and coastal landscapes, alternative energy production options, and offshore wind energy development. Respondents will be sampled from households in eight to ten coastal counties.

The required information will be used to objectively assess the level of support and/or opposition for offshore wind energy development in the region, as well as identify the relevant issues and concerns most salient to residents. The information will be used by BOEM, NOAA, and others to improve agency understanding about the beliefs, social values, attitudes, and concerns of people potentially affected by offshore wind energy development. Such information will be used to ascertain the possible sociocultural outcomes of offshore wind energy development in the region, such as an enhancement or reduction in enjoyment of the coastal landscape/seascape. Additionally, information collected will be used to improve communication efforts targeted to residents, enabling agencies to more effectively and efficiently direct outreach and community inclusion activities.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395–5806.

Dated: May 26, 2016.
