Abstract: The Government Performance and Results Act (GPRA) requires all federally funded agencies to develop and implement an accountability system based on performance measurement. This regulation applies to grantees receiving funds from the Dept. of ED's Office of Innovation and Improvement Arts in Education—Model Development and Dissemination (AEMDD), Professional Development for Arts Educators (PDAE), and Arts in Education National Program (AENP) programs. Each grantee is required to report on performance and progress towards GPRA measures as a condition of the grant. Data for GPRA performance measures are collected through the Annual Performance Report (APR) completed by grantees. The APR also collects budget information and data on project-specific performance measures. The forms being submitted for OMB review are APR templates that

expand on the ED 524-B form to gather additional data on performance from Arts in Education grantees in a streamlined manner. Performance data are used to help make decisions about continued funding for grantees and to show overall program progress by aggregating GPRA data across grantees. GPRA data may be also be used by Congress to determine future program funding.
