Need and Use of Information Collection: This study is collecting stakeholder feedback from past and future workshops; to assess the effectiveness of the Center of Global Health (CGH) workshops, which seek to

assess abilities of the workshop attendees and respective countries to implement national cancer control programs; inform content and improve delivery of future workshops, and to systematically assess CGH's contribution. The workshops to be studied are the Symposia on Global Cancer Research, Workshops in Cancer Control Planning and Implementation, the Summer Curriculum in Cancer Prevention, Women's Cancer Program Summit, Regional Grant Writing and Peer Review Workshops, and Workshops on Tobacco Control. While these workshops differ in content and delivery style, their underlying goals are the same; they intend to initiate and enhance cancer control efforts, increase capacity for cancer research, foster new partnerships, and create research and cancer control networks. The proposed study requests information about the outcomes of each of these workshops including (1) new cancer research partnerships and networks (2) cancer control partnerships and networks, (3) effects on cancer research, and (4) effect on cancer control planning and implementation efforts. Information will be collected in two phases where Phase 1 will collect information from attendees of past workshops (1998-2015) and Phase 2 will collect information from attendees of future workshops over the next three years. The surveys will enable CGH to better understand the impact the workshops have had on their partnerships and networks, research, and cancer control planning and implementation efforts.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 941.
