

Development Centers, and the National Institutes of Health Intramural Research Programs. NCSES, under full clearance (OMB #3145-0235), has conducted a pilot survey with data collection period spanning July 2014 to March 2015. The Pilot ECDS data will be released in 2016.

Beginning in November 2016, NSF will request lists of ECDs from approximately 390 institutions nationwide, and sample 24,000 individuals from these lists. Sample members will be invited to participate in a 40-minute web-based questionnaire. The survey topics cover: Educational achievement, professional activities, employer demographics, professional and personal life balance, mentoring, training and research opportunities, and career paths and plans. Participation in the survey is voluntary.

The survey will be collected in conformance with the Privacy Act of 1974 and the Confidential Information Protection and Statistical Efficiency Act (CIPSEA). The NSF will ensure that all individually identifiable information collected will be kept strictly confidential and will be used for research or statistical purposes.

Use of the Information: The NSF will publish statistics from the survey in several reports, including the National Science Board's *Science and*

Engineering Indicators and NCSES's *Women, Minorities, and Persons with Disabilities in Science and Engineering*. These reports will be made available electronically on the NSF Web site. Restricted-use and public use data files will also be developed, and will be made available to interested researchers from government, professional associations, and other organizations. Restricted-use data may be obtained under a license agreement.

Expected Respondents: There are four groups who contribute to the estimated total burden hours of the ECDS data collection. Three groups assist in the development of an accurate list of ECDs: Institutional high authority (HA), communication coordinator (CC), and list coordinator (LC). The fourth group is the individual early career doctorate (ECD). At the first stage of sampling, the ECDS will select 390 institutions. At each institution, a high authority (HA) will authorize the institution's participation in the study, designate a list coordinator (LC) and a communication coordinator (CC), and provide a letter of support for the survey. The primary responsibility of the LC is to prepare a list of ECD working at the institution. The LC will provide a list of all ECD, that is, individuals working at their institution who earned their first doctorate or

doctorate-equivalent degree within the past 10 years, including postdocs, nonfaculty researchers, tenured or tenure-track faculty members. The primary responsibility of the CC is to coordinate all communications at the institution. In the second stage, the HA, with the help of the CC, will notify the sampled individuals of their selection and NSF will survey these individuals.

Estimate of Burden: In the Pilot ECDS, HAs required 30 minutes on average to complete their tasks while CCs required 90 minutes on average to complete their tasks. We estimate a maximum total burden of 195 hours for HAs and 585 hours for CCs across both stages of data collection. LCs in participating institutions required an average of 8 hours to fulfill their duties during the Pilot ECDS. We estimate the maximum total LC burden to be 3,120 hours during stage 1. NCSES estimates that respondents will take 40 minutes on average to complete the questionnaire based on the time to completion data from the Pilot ECDS. We estimate the maximum total ECD burden to be 16,000 hours.

Taking into account all four groups (HA, CC, LC, and ECD), we estimate the maximum total respondent burden to be 19,900 hours. The below table shows the estimated burden by stage and respondent type.

ECDS ESTIMATED BURDEN BY STAGE AND RESPONDENT TYPE

Respondent type	Sample members	Minutes per respondent	Estimated total burden hours
Stage 1: Frame Creation:			
High Authority (HA)	390	20	130
Communication Coordinator (CC)	390	60	390
List Coordinator (LC)	390	480	3,120
<i>Subtotal</i>			3,640
Stage 2: Individual Survey:			
High Authority (HA)	390	10	65
Communication Coordinator (CC)	390	30	195
Early Career Doctorate (ECD)	24,000	40	16,000
<i>Subtotal</i>			16,260
Total ¹	-	-	19,900

¹ This is an initial estimated burden hours which is based on preliminary sample design. NCSES anticipates the final burden hours to be at or below this initial estimate.
