Training Land Expansion at Fort Benning, Georgia and Alabama, Withdrawal of Notice of Intent To Prepare an Environmental Impact Statement

AGENCY: Department of the Army, DoD.

ACTION: Notice of Intent; Withdrawal.

SUMMARY: The Department of the Army is announcing withdrawal of its Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS) for Fort Benning Training Land Expansion as well as the subsequent Draft EIS. The original NOI was published in the **Federal Register** on June 4, 2010 (75 FR 31770). The Notice of Availability for the Draft EIS was published in the **Federal Register** on May 13, 2011 (76 FR 28005). The Army has determined that the proposed land acquisition will no longer be pursued due to a reduction in requirements. This was the result of a combination of force structure realignment decisions affecting Fort Benning and actions taken to relocate maneuver training for Fort Benning's Army Reconnaissance Course (ARC). This ends the National Environmental Policy Act (NEPA) process for this action.

FOR FURTHER INFORMATION CONTACT: Ms. Monica Manganaro, Fort Benning Public Affairs Office: at (706) 545-3438, Monday through Friday, 8:00 a.m. to 5:00 p.m. E.S.T.; by email to monica.l.manganaro.civ@mail.mil; or postal service mail to PAO, Ste 141-W McGinnis-Wickam Hall, 1 Karker Street, Fort Benning, GA 31905.

SUPPLEMENTARY INFORMATION: Fort Benning, home to the Maneuver Center of Excellence (MCoE), is the Army's premier basic training installation, training Infantry, Armor, and Cavalry Soldiers in basic and advanced combat skills, as well as Airborne Soldiers and Rangers.

Training Land Expansion at Fort Benning met two requirements. The first was to secure additional maneuver area consistent with doctrinal training requirements. The second purpose was a time-sensitive 2009 Biological Opinion (BO) that required movement of ARC heavy maneuver training to an area outside the current Fort Benning without Red-Cockaded Woodpeckers (a listed species under the Endangered Species Act).

The Army published a Draft EIS on May 13, 2011 to study the potential environmental impacts of acquisition and use of up to approximately 82,800
