

- Whether use limits should be imposed on trail use for segments outside of the Black Elk Wilderness;
- Whether to authorize additional outfitter-guide permits;
- Whether to authorize the implementation of use fees;
- Whether to authorize phased construction of the Rushmore Connector Trail on NFS lands prior to potential final rulemaking procedures for actions within Mount Rushmore National Memorial.

Some of these decisions may be reserved to the Regional Forester of the Rocky Mountain Region of the Forest Service. The level of individual decisions will be determined by the actions outlined through the NEPA process. If any action alternative is selected, project implementation could begin in the year 2018. The initial focus would be to issue authorizations and engineering design and layout.

#### Permits or Licenses Required

A special use permit issued by the Forest Service under FLPMA would be required before any action alternative could be implemented.

#### Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments may not allow the Agency to provide the respondent with subsequent environmental documents.
