**DEPARTMENT OF HOMELAND SECURITY**

**Transportation Security Administration**

**Intent To Request Extension From OMB of One Current Public Collection of Information: Aviation Security Customer Satisfaction Performance Measurement Passenger Survey**

**AGENCY:** Transportation Security Administration, DHS.

**ACTION:** 60-Day notice.

**SUMMARY:** The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR),

Office of Management and Budget (OMB) control number 1652-0013, abstracted below that we will submit to OMB for an extension in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection involves surveying travelers to measure customer satisfaction of aviation security in an effort to manage airport performance more efficiently.

**DATES:** Send your comments by August 8, 2016.

**ADDRESSES:** Comments may be emailed to *TSAPRA@dhs.gov* or delivered to the TSA PRA Officer, Office of Information Technology (OIT), TSA-11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598-6011.

**FOR FURTHER INFORMATION CONTACT:** Christina A. Walsh at the above address, or by telephone (571) 227-2062.

**SUPPLEMENTARY INFORMATION:**

**Comments Invited**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

**Information Collection Requirement**

*OMB Control Number 1652-0013; Aviation Security Customer Satisfaction Performance Measurement Passenger Survey.* TSA, with OMB's approval, has conducted surveys of passengers at airports nationwide and now seeks approval to continue this effort. The surveys are administered using an intercept methodology. The intercept methodology uses TSA personnel who are not in uniform to hand deliver business card style forms to passengers immediately following the passenger's experience with the TSA's checkpoint security functions. Passengers are invited, though not required, to complete and return the survey using either an online portal or by responding in writing to the survey questions on the customer satisfaction card and depositing the card in a drop-box at the airport or using U.S. mail; prior to each survey collection at an airport, TSA personnel select the method by which all passengers surveyed on that particular occasion will be asked to complete and return the survey. TSA uses the intercept methodology to randomly select passengers to complete the survey in an effort to gain survey data representative of all passenger demographics—including passengers who—

- Travel on weekdays or weekends;
- Travel in the morning, mid-day, or evening;

- Pass through each of the different security screening locations in the airport;
- Are subject to more intensive screening of their baggage or person; and
- Experience different volume conditions and wait times as they proceed through the security checkpoints.

Each survey includes 10 to 15 questions, and each question promotes a quality response so that TSA can identify areas in need of improvement. All questions concern aspects of the passenger's security screening experience.

TSA collects this information in order to continue to assess customer satisfaction in an effort to manage TSA employee performance more efficiently. OMB has previously approved 82 questions. TSA is requesting an extension of the approval for the information collection.

TSA personnel have the capability to conduct this survey at 25 airports each year. Based on prior survey data and research, TSA estimates 384 responses from the passengers at each airport. The average number of respondents is estimated to be 9,600 per year (384 passengers × 25 airports). TSA estimates that the time it takes to complete the survey either online or by writing on the form ranges from 3 to 7 minutes, an average of 5 minutes (0.083 hrs.) per respondent. Therefore, the annual burden is 800 hours (9,600 responses × 0.083 hours).

June 2, 2016.
