

Forest Plan Amendment

This project would require an amendment to the Lincoln National Forest Land and Resource Management Plan (Forest Plan). The project proposes use of herbicides in places and under conditions that were not foreseen when the existing Forest Plan standards and guidelines were developed in 1986. To meet the purpose and need for this project, it may be necessary to apply herbicide treatments to areas infested with non-native invasive plant species.

This amendment would change forestwide standards and guidelines applicable to all areas for wildlife (pages 31–34), grazing management (page 35 and replacement page 35B), soil and water (pages 40–41), fire and protection (replacement page 55), all species (pages 205–206), Mexican spotted owl (replacement page 206A), peregrine falcon (page 207), and northern goshawk (replacement page 208A and 208E). The amendment also would change standards and guidelines related to protection in management area 1C Capitan Mountains Wilderness (replacement page 62), management area 1F White Mountain Wilderness (replacement page 70), management area 1H RNA William G. Telfer Research Natural Area (page 77), and management area 3A RNA Upper McKittrick RNA (page 115). If adopted, this would be the eighteenth amendment to the Forest Plan since its inception in 1986.

Responsible Official

The Responsible Official for this project is the Lincoln National Forest, Forest Supervisor.
