This collection of information concerns research in, and the harvesting and importation of, marine living resources from waters regulated by CCAMLR related to ecosystem research, U.S. harvesting permit application and/or harvesting vessel operators and to importers and re-exporters of Antarctic marine living resources. The collection is necessary in order for the United States to meet its treaty obligations as a contracting party to the Convention.

ACTION: Notice of open meetings, monthly webinars.

SUMMARY: The National Telecommunications and Information Administration (NTIA), as part of its BroadbandUSA program, will host a nine-part series of monthly webinars to engage stakeholders to inform the development of the Community Connectivity Initiative (Initiative). The objective of the Initiative is to support communities working to accelerate broadband access, improve digital inclusion, strengthen policies, and support local community priorities. The webinar series will convene stakeholders to discuss the role that broadband plays in achieving local priorities and will solicit input on the development of the Initiative, which is a compilation of three new resources for local communities featuring: (1) A Community Connectivity framework; (2) an online self-assessment tool; and (3) a report and recommendations. Through collaborative sessions, participants will: Review the Community Connectivity framework; review assessment questions and response options; co-design the structure and content for the report and recommendations; and identify supporting resources and tools that will support the local communities' use of the tools in 2017 and beyond.

DATES: The Community Connectivity Initiative monthly webinars will be held on the second Thursday of each month from 2:00-3:00 p.m., Eastern Time, starting on July 14, 2016 and ending on March 9, 2017.

ADDRESSES: This is a virtual meeting. Participants can register for one or more webinars in the series at NTIA's Web site at <http://www2.ntia.doc.gov/CommunityConnectivityWebinars>.

SUPPLEMENTARY INFORMATION:

NTIA's BroadbandUSA program provides expert advice and field-proven tools for assessing broadband adoption, planning new infrastructure and engaging a wide range of partners in broadband projects. BroadbandUSA convenes workshops on a regular basis to bring stakeholders together to discuss ways to improve broadband policies, share best practices, and connect communities to other federal agencies and funding sources for the purpose of expanding broadband infrastructure and adoption throughout America's communities. Experts from NTIA's BroadbandUSA program are available to provide technical assistance and to connect communities with additional resources, such as best practices, guides and program models.

NTIA's BroadbandUSA team is developing new tools to support communities working to expand broadband access, adoption and use. The Initiative will provide communities with a comprehensive self-assessment tool and report to enable communities to better understand how their current policies and programs support broadband connectivity; an index or comparative community connectivity score; technical assistance with broadband planning and implementation; and access to an expanding community of practice. This webinar series will address the development of each of these components, including the planning framework, online self-assessment tool, and report with recommendations. Each webinar will include a 15-20 minute overview and update on the Community Connectivity Initiative and a discussion topic pertinent to the 2016 development and program roll-out. The proposed focus areas for each meeting are listed below:

July 14: Initiative update and framework and assessment design discussion
 Aug. 11: Initiative update and discussion of the report and recommended output
 Sept. 8: Initiative update and recommendations discussion
