Modification of VOR Federal Airway V–552; Mississippi

AGENCY: Federal Aviation Administration (FAA), DOT.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies the air traffic service route.

History

VOR Federal airway V–552 extends between Beaumont, TX, and Monroeville, AL. In that segment of the airway between the Picayune, VOR, DME and the CAESA, MS, navigation fix, restricted area R–4403F infringes on the 4 nautical mile (NM) wide protected airspace on the south side of the airway. The northernmost point of R–4403F is approximately 3.73 NM from the centerline of the airway instead of the required 4 NM clearance. R–4403F is subject to intermittent use by Notice to Airmen (NOTAM) issued at least 24 hours in advance. This action amends the V–552 airway description to exclude the airspace in R–4403F from the airway while the restricted area is activated.

VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.9Z dated August 6, 2015, and effective September 15, 2015, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airway listed in this document will be subsequently amended in the Order.
The FAA is amending Title 14 of the Code of Federal Regulations (14 CFR) part 71 by adding the words “The airspace within R–4403F is excluded during its times of use” to the regulatory text of VOR Federal airway V–552. Because this amendment is necessary to ensure the safe separation of air traffic from restricted airspace when the restricted area is active, I find that notice and public procedure under 5 U.S.C. 553(b) are impractical and contrary to the public interest.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5–6.5a. This airspace action consists of modifying an airway and it is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exists that warrant preparation of an environmental assessment.

Continuum of Care Program—Increasing Mobility Options for Homeless Individuals and Families With Tenant-Based Rental Assistance

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Interim rule.

SUMMARY: On July 31, 2012, HUD published an interim rule entitled “Homeless Emergency Assistance and Rapid Transition to Housing: Continuum of Care Program.” The Continuum of Care (CoC) program is designed to address the critical problem of homelessness through a coordinated community-based process of identifying needs and building a system of housing and services to address those needs. This rule amends the CoC program regulations to allow individuals and families to choose housing outside of a CoC’s geographic area, subject to certain conditions, and to retain the tenant-based rental assistance under the CoC program. In addition to allowing individuals and families to choose housing outside of the CoC’s geographic area, this interim rule exempts recipients and subrecipients from compliance with all nonstatutory regulations when a program participant moves to flee domestic violence, dating violence, sexual assault, or stalking. This relaxation of conditions is consistent with the Violence Against Women Reauthorization Act of 2013, directing greater protections for victims of domestic violence, dating violence, sexual assault, or stalking.
