B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at http://www.regulations.gov and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information. If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

NRC’s Office of Small Business and Civil Rights (SBCR) collects information from applicants in accordance with Federal mandates requiring compliance reviews be conducted prior to an agency issuing a grant award. The information is collected and analyzed to determine, if there are any “concerns” regarding discrimination violations. Following the issuance of a grant award, information is collected from recipients as part of the legislatively mandated post-award compliance process, to ensure compliance with Equal Opportunity (EO) and fair practice laws during the period of FFA. During the post-award period, recipients are required to submit an annual EO performance report no later than December 31st of each calendar year. Additionally, the regulations require SBCR to investigate Title 9 complaints alleging discrimination filed against recipients receiving FFA from the Commission. This document is the second of two Federal Register notices (second notice) required by the Paperwork Reduction Act (“PRA”). In December 2015, the NRC published a related Federal Register notice. The Commission did not receive any public comments. This “second notice” requests public comment, and OMB’s review and approval of, the proposed collection of information discussed in this notice.

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review, entitled, “10 CFR part 5, Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a Federal Register notice with a 60-day comment period on this information collection on December 18, 2015, (80 FR 79102).

1. The title of the information collection: “Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance.”

2. OMB approval number: 3150–0209.

3. Type of submission: Extension.

4. The form number if applicable: NRC 781, “SBCR Compliance Review” and NRC 782, “Complaint Form.”

5. How often the collection is required or requested: 10 CFR part 5 follows provisions covered in 10 CFR part 4, section 4.331 Compliance Reviews, which indicates that the NRC may conduct compliance reviews and Pre-Award reviews of recipients or use other similar procedures that will permit it to investigate and correct violations of the act and these regulations. The NRC may conduct these reviews even in the absence of a complaint against a recipient. The reviews may be as comprehensive as necessary to determine whether a violation of these regulations has occurred.

6. Who will be required or asked to respond: Recipients of FFA provided by the NRC (including educational institutions, other non-profit organizations receiving FFA, and Agreement States).

7. The estimated number of annual responses: 800.

8. The estimated number of annual respondents: 200.

9. An estimate of the total number of hours needed annually to comply with the information collection requirement or request: 3,600.

10. Abstract: The proposed collection of information is necessary to ensure nondiscrimination and compliance with Federal civil rights regulations in NRC’s FFA programs and activities.

Interested parties are invited to send comments regarding any aspect of this information collection, including: (1) The necessity and utility of the information collection for the proper performance of the functions of the NRC; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the collected information; and (4) ways to minimize the collection burden without reducing the quality of the collected information. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection.

Dated at Rockville, Maryland, this 10th day of June 2016.
