Information Available From This Notice

The EPA Air Pollution Control Cost Manual provides guidance for the development of accurate and consistent costs for air pollution control devices. The Control Cost Manual focuses on point source and stationary area source air pollution controls for volatile organic compounds, particulate matter, oxides of nitrogen (NO_x), and certain acid gases (primarily sulfur dioxide and hydrochloric acid). The EPA is currently updating the Control Cost Manual. This update will be the Seventh Edition and is required under the authority of the 2014 Consolidated Appropriations Act.

The Control Cost Manual contains individual chapters on control

measures, including data and equations to aid users in estimating capital costs for installation and annual costs for operation and maintenance of these measures. The Control Cost Manual is used by the EPA for estimating the impacts of rulemakings, and serves as a basis for sources to estimate costs of controls that are Best Available Control Technology under the New Source Review Permitting Program and Best Available Retrofit Technology under the Regional Haze Program and for other programs.

The two Control Cost Manual chapters that have been revised include “Chapter 1—Selective Non-Catalytic Reduction” and “Chapter 2—Selective Catalytic Reduction.” These two chapters are the first two chapters to be released for the Seventh Edition of the Control Cost Manual and replace the Selective Non-Catalytic Reduction and Selective Catalytic Reduction chapters in the current Control Cost Manual Sixth Edition. A response to comment (RTC) document summarizing comments and agency responses is available for each chapter. In addition, cost calculation information is provided electronically for each chapter enabling estimation of costs for installing and operating NOx control measures. The final chapters, RTC and cost calculation documents are available at https://www3.epa.gov/ttn/ecas/cost_manual.html. In addition, all public comments received by the agency are available in the docket for this Notice of Availability (EPA-HQ-OAR-2015-0341).

The Control Cost Manual was last updated in 2003. The development of the Control Cost Manual Seventh Edition is in response to the Consolidated Appropriations Act of 2014, which requested that the EPA begin development of a seventh edition of the Control Cost Manual.

II. Background

The EPA conducted this review under the authority of Section 9 of the WIPP Land Withdrawal Act (WIPP LWA, Pub. L. Nos. 102-579 and 104-201). Section 9(a)(1) of the WIPP LWA requires that, as of the date of the enactment of the WIPP LWA, the DOE shall comply with respect to the WIPP with (1) regulations for the management and storage of radioactive waste (40 CFR part 191, subpart A); (2) the Clean Air Act; (3) the Solid Waste Disposal Act; (4) the Safe Drinking Water Act; (5) the Toxic Substances Control Act; (6) the Comprehensive Environmental Response, Compensation, and Liability Act; and (7) all other applicable Federal laws pertaining to public health and safety or the environment. Section 9(a)(2) of the WIPP LWA requires the DOE biennially to submit to the EPA documentation of continued compliance with the laws, regulations, and permit requirements set forth in Section 9(a)(1).

As outlined in the EPA’s letter to the Secretary of Energy, the Agency has been able to conclude its review of the WIPP BECR for the reporting period, April 1, 2012 through March 31, 2014 based on receipt of all cumulative documentation from DOE and the Settlement Agreement between the State of New Mexico and the Department. EPA will consider the DOE’s compliance with the Settlement Agreement as part of its review of the Department’s compliance for the next reporting period, from April 1, 2014 to March 31, 2016, and subsequent reporting periods as appropriate. The Agency will continue its oversight of the WIPP and continue to work cooperatively with the DOE, the State of New Mexico and the public to ensure that the WIPP is protective of human health and the environment. All relevant information related to this review—including this notice and the letter to the Secretary of Energy—are available online via the WIPP news Web site (<https://www.epa.gov/radiation/wipp-news>) and the aforementioned docket on www.regulations.gov (EPA-HQ-OAR-2016-0265).

This determination is not in any way related to, or a part of, the EPA’s certification and recertification decisions regarding whether the WIPP complies with the Agency’s disposal
