#### Pure Magnesium From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2014-2015

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** On February 8, 2016, the Department of Commerce ("Department") published in the *Federal Register* the preliminary results of the administrative review of the antidumping duty order on pure magnesium from the People's Republic of China ("PRC") covering the period May 1, 2014 through April 31, 2015.<sup>1</sup> This review covers one PRC exporter, Tianjin Magnesium International, Co., Ltd. ("TMI") and Tianjin Magnesium Metal, Co., Ltd. ("TMM") (collectively "TMI/TMM"). The Department gave interested parties an opportunity to comment on the *Preliminary Results*, but we received no comments. Hence, these final results are unchanged from the *Preliminary Results*, and we continue to find that TMI/TMM did not have reviewable entries during the period of review ("POR").

**DATES:** *Effective Date:* June 14, 2016.

<sup>1</sup> See *Pure Magnesium From the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2014-2015*, 81 FR 6504 (February 8, 2016) ("*Preliminary Results*").

**FOR FURTHER INFORMATION CONTACT:** Shanah Lee or Brendan Quinn, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-6386 or (202) 482-5848, respectively.

#### SUPPLEMENTARY INFORMATION:

##### Background

On February 8, 2016, the Department published the *Preliminary Results* of the instant review, preliminarily finding that TMI/TMM did not have any reviewable entries during the POR.<sup>2</sup> We invited interested parties to comment on the *Preliminary Results*.<sup>3</sup> We received no comments from interested parties.

The Department conducted this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended ("the Act").

##### Scope of the Order

Merchandise covered by the order is pure magnesium regardless of chemistry, form or size, unless expressly excluded from the scope of the order. Pure magnesium is a metal or alloy containing by weight primarily the element magnesium and produced by decomposing raw materials into magnesium metal. Pure primary magnesium is used primarily as a chemical in the aluminum alloying, desulfurization, and chemical reduction industries. In addition, pure magnesium is used as an input in producing magnesium alloy. Pure magnesium encompasses products (including, but not limited to, butt ends, stubs, crowns and crystals) with the following primary magnesium contents:

(1) Products that contain at least 99.95% primary magnesium, by weight (generally referred to as "ultra pure" magnesium);

(2) Products that contain less than 99.95% but not less than 99.8% primary magnesium, by weight (generally referred to as "pure" magnesium); and

(3) Products that contain 50% or greater, but less than 99.8% primary magnesium, by weight, and that do not conform to ASTM specifications for alloy magnesium (generally referred to as "off-specification pure" magnesium).

"Off-specification pure" magnesium is pure primary magnesium containing magnesium scrap, secondary magnesium, oxidized magnesium or impurities (whether or not intentionally added) that cause the primary magnesium content to fall below 99.8%

by weight. It generally does not contain, individually or in combination, 1.5% or more, by weight, of the following alloying elements: Aluminum, manganese, zinc, silicon, thorium, zirconium and rare earths.

Excluded from the scope of the order are alloy primary magnesium (that meets specifications for alloy magnesium), primary magnesium anodes, granular primary magnesium (including turnings, chips and powder) having a maximum physical dimension (*i.e.*, length or diameter) of one inch or less, secondary magnesium (which has pure primary magnesium content of less than 50% by weight), and remelted magnesium whose pure primary magnesium content is less than 50% by weight.

Pure magnesium products covered by the order are currently classifiable under Harmonized Tariff Schedule of the United States ("HTSUS") subheadings 8104.11.00, 8104.19.00, 8104.20.00, 8104.30.00, 8104.90.00, 3824.90.11, 3824.90.19 and 9817.00.90. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope is dispositive.

##### Final Determination of No Shipments

As explained in the *Preliminary Results*, the Department found that TMI/TMM did not have reviewable entries during the POR.<sup>4</sup> Also in the *Preliminary Results*, the Department stated that consistent with its refinement to its assessment practice in non-market economy ("NME") cases, it is appropriate not to rescind the review in this circumstance but, rather, to complete the review with respect to TMI/TMM and to issue appropriate instructions to Customs and Border Protection ("CBP") based on the final results of the review.<sup>5</sup>

After issuing the *Preliminary Results*, the Department received no comments from interested parties, nor has it received any information that would cause it to revisit its preliminary results. Therefore, for these final results, the Department continues to find that TMI/TMM did not have any reviewable entries during the POR.

##### Assessment Rates

The Department determined, and CBP shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the

<sup>4</sup> *Id.*, at 6505-6506.

<sup>5</sup> See *Non-Market Economy Antidumping Proceedings: Assessment of Antidumping Duties*, 76 FR 65694 (October 24, 2011) ("*Assessment Practice Refinement*") and the "Assessment Rates" section, below.

<sup>2</sup> *Id.*, at 6505-6506.

<sup>3</sup> *Id.*, at 6506.

final results of this review.<sup>6</sup> The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

Additionally, consistent with the Department's refinement to its assessment practice in NME cases, because the Department determined that TMI/TMM had no shipments of subject merchandise during the POR, any suspended entries that entered under TMI/TMM's antidumping duty case number (*i.e.*, at that exporter's rate) will be liquidated at the PRC-wide rate.<sup>7</sup>

#### Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice of final results of the administrative review, as provided by section 751(a)(2)(C) of the Act: (1) For TMI/TMM, which claimed no shipments, the cash deposit rate will remain unchanged from the rate assigned to TMI/TMM in the most recently completed review of the company; (2) for previously investigated or reviewed PRC and non-PRC exporters who are not under review in this segment of the proceeding but who have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 111.73 percent;<sup>8</sup> and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter(s) that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

#### Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that

reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

#### Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing these final results and this notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: June 7, 2016.

#### Countervailing Duty Investigation of Certain Corrosion-Resistant Steel Products From India: Notice of Correction to Final Affirmative Determination; Negative Determination of Critical Circumstances

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**FOR FURTHER INFORMATION CONTACT:** Matthew Renkey, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-2312.

**SUPPLEMENTARY INFORMATION:** On June 2, 2016, the Department of Commerce (the Department) published the *Final Determination* on certain corrosion-resistant steel products from India.<sup>1</sup> In the *Final Determination* the Department inadvertently omitted its final analysis of critical circumstances. Pursuant to 19 CFR 351.206(c)(2)(i), the Department preliminarily determined that critical

circumstances did not exist<sup>2</sup> and received no comments on this issue. Based on the examination of the shipping data placed on the record by the mandatory respondents after the *Preliminary Determination*,<sup>3</sup> we examined whether the increase in imports was massive by comparing shipments over the period of July 2014 through February 2015, with the period March 2015 through October 2015 for the mandatory respondents.<sup>4</sup> Because the *Preliminary Determination* was published November 6 (the beginning of November), we used data through October in determining critical circumstances for the mandatory respondents. For all other producers and exporters, our critical circumstances determination continues to be based on data through August, the latest month for which GTA data is on the record, and is thus unchanged from the *Preliminary Determination*. The Department continues to find that critical circumstances do not exist for the mandatory respondents, or for all other producers and exporters.

This correction to the *Final Determination* is issued and published in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended.

Dated: June 8, 2016.
