*Docket:* Background documents or comments received may be read at <http://www.regulations.gov> at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** Alphonso W. Pendergrass II (202) 267-4713, Office of Rulemaking, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591.

This notice is published pursuant to 14 CFR 11.85.

Issued in Washington, DC, on June 8, 2016.

**Dale Bouffiu,**

*Deputy Director, Office of Rulemaking.*

#### **Petition for Exemption**

*Docket No.:* FAA-2016-0863.

*Petitioner:* Raytheon Space and Airborne Systems (RSAS).

*Section(s) of 14 CFR Affected:* § 91.529(b).

*Description of Relief Sought:* RSAS is requesting an exemption to permit the combined hours attained as a pilot and flight engineer in the B727 to be used to satisfy the 50 hours every six months to retain flight engineer currency. All dual qualified pilots and flight engineers will continue to receive an annual pilot proficiency check as required under 14 CFR 61.58 as well as an annual flight engineer proficiency check as required under 14 CFR 91.529.

## **DEPARTMENT OF TRANSPORTATION**

### **Federal Aviation Administration**

#### **Notice of Land Use Change and Release of Grant Assurance Restrictions at the Sacramento International Airport (SMF), Sacramento, California**

**AGENCY:** Federal Aviation Administration, DOT.

**ACTION:** Notice of a non-aeronautical land-use change.

**SUMMARY:** The Federal Aviation Administration (FAA) proposes to rule and invites public comment on the application for a land-use change for approximately 31.1 acres of airport property at Sacramento International Airport (SMF), Sacramento. The land use change will allow airport land to be released from the aeronautical use provisions of the Grant Assurances that require it to serve an airport purposes since the land is not needed for aeronautical uses. The reuse of the land for solar energy generating arrays represents a compatible land use that will not interfere with the airport or its operations. The solar generated electricity will benefit the airport by producing a market return on the land while reducing electrical costs. Cost savings will equal or exceed the fair market rental value of the land occupied by the solar farms. These benefits will serve the interest of civil aviation and contribute to the self-sustainability of the airport.

**DATES:** Comments must be received on or before July 14, 2016.

**FOR FURTHER INFORMATION CONTACT:** Comments on the request may be mailed or delivered to the FAA at the following address: Mr. James W. Lomen, Manager, Federal Aviation Administration, San Francisco Airports District Office, Federal Register Comment, 1000 Marina Boulevard, Suite 220, Brisbane, CA 94005. In addition, one copy of the comment submitted to the FAA must be mailed or delivered to Mr. Glen Rickelton, Airport Manager, Sacramento International Airport, 6900 Airport Boulevard, Sacramento, CA 95837.

**SUPPLEMENTARY INFORMATION:** In accordance with the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (AIR 21), Public Law 106-181 (Apr. 5, 2000; 114 Stat. 61), this notice must be published in the **Federal Register** 30 days before the Secretary may waive any condition imposed on a federally obligated airport by surplus property conveyance deeds or grant agreements.

The following is a brief overview of the request:

The County of Sacramento, California requested a modification to the conditions in the Grant Assurances to permit the non-aeronautical use of approximately 31.1 acres of land at Sacramento International Airport for two separate solar array sites to produce solar generated electricity for the airport. One solar array site will occupy approximately 16.3 acres of unimproved land located in the north portion of the airfield, west of Taxiway D. Site two is approximately 14.8 acres of an unused

parking area between Aviation Drive and Taxiway D in the south portion of the airfield. Reuse of the land for the solar arrays will not impede future development of the airport, as there is sufficient land for airport development. The lease rate is based on the appraised market value. In lieu of direct rental payments, the airport will be subject to a reduced electrical rate that will produce cost savings that equal or exceed the appraised market value of the land. The use of the property for the solar arrays represents a compatible use. Construction and operations of the solar arrays will not interfere with airport operations. The solar arrays will reduce airport operational costs, which will enhance the self-sustainability of the airport and, thereby, serve the interest of civil aviation.

Issued in Brisbane, California, on June 7, 2016.

**James W. Lomen,**

*Manager, San Francisco Airports District Office, Western-Pacific Region.*

### **National Highway Traffic Safety Administration**

[Docket No. NHTSA-2016-0028; Notice 1]

#### **Volkswagen Group of America, Inc., Receipt of Petition for Decision of Inconsequential Noncompliance**

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

**ACTION:** Receipt of petition.

**SUMMARY:** Volkswagen Group of America, Inc. (Volkswagen), has determined that certain model year (MY) 2016 Volkswagen Beetle Convertible passenger cars do not fully comply with paragraph S4.3(d) of Federal Motor Vehicle Safety Standard (FMVSS) No. 110, *Tire Selection and Rims and Motor Home/Recreation Vehicle Trailer Load Carrying Capacity Information for Motor Vehicles with a GVWR of 4,536 kilograms (10,000 pounds) or Less*. Volkswagen filed a report dated February 23, 2016, pursuant to 49 CFR part 573, *Defect and Noncompliance Responsibility and Reports*. Volkswagen then petitioned NHTSA under 49 CFR part 556 requesting a decision that the subject noncompliance is inconsequential to motor vehicle safety.

**DATES:** The closing date for comments on the petition is July 14, 2016.
