

final results of this review.<sup>6</sup> The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

Additionally, consistent with the Department's refinement to its assessment practice in NME cases, because the Department determined that TMI/TMM had no shipments of subject merchandise during the POR, any suspended entries that entered under TMI/TMM's antidumping duty case number (*i.e.*, at that exporter's rate) will be liquidated at the PRC-wide rate.<sup>7</sup>

#### Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice of final results of the administrative review, as provided by section 751(a)(2)(C) of the Act: (1) For TMI/TMM, which claimed no shipments, the cash deposit rate will remain unchanged from the rate assigned to TMI/TMM in the most recently completed review of the company; (2) for previously investigated or reviewed PRC and non-PRC exporters who are not under review in this segment of the proceeding but who have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 111.73 percent;<sup>8</sup> and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter(s) that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

#### Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that

reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

#### Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing these final results and this notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: June 7, 2016.

#### Countervailing Duty Investigation of Certain Corrosion-Resistant Steel Products From India: Notice of Correction to Final Affirmative Determination; Negative Determination of Critical Circumstances

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**FOR FURTHER INFORMATION CONTACT:** Matthew Renkey, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-2312.

**SUPPLEMENTARY INFORMATION:** On June 2, 2016, the Department of Commerce (the Department) published the *Final Determination* on certain corrosion-resistant steel products from India.<sup>1</sup> In the *Final Determination* the Department inadvertently omitted its final analysis of critical circumstances. Pursuant to 19 CFR 351.206(c)(2)(i), the Department preliminarily determined that critical

circumstances did not exist<sup>2</sup> and received no comments on this issue. Based on the examination of the shipping data placed on the record by the mandatory respondents after the *Preliminary Determination*,<sup>3</sup> we examined whether the increase in imports was massive by comparing shipments over the period of July 2014 through February 2015, with the period March 2015 through October 2015 for the mandatory respondents.<sup>4</sup> Because the *Preliminary Determination* was published November 6 (the beginning of November), we used data through October in determining critical circumstances for the mandatory respondents. For all other producers and exporters, our critical circumstances determination continues to be based on data through August, the latest month for which GTA data is on the record, and is thus unchanged from the *Preliminary Determination*. The Department continues to find that critical circumstances do not exist for the mandatory respondents, or for all other producers and exporters.

This correction to the *Final Determination* is issued and published in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended.

Dated: June 8, 2016.
