

exclusive use period for data submitted in support of a registration under FIFRA section 3(c)(1)(F)(ii) or a new exclusive use period for data submitted to support a registration under FIFRA section 3(c)(1)(F)(vi). These clauses are intended to provide incentives to registrants to obtain registrations for uses that might otherwise go unfulfilled because they offer low returns because of low demand.

The information collection activities associated with the activities described in this PR Notice are already approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.* The corresponding Information Collection Request (ICR) document for the Application for New and Amended Pesticide Registration has been assigned EPA ICR number 0277.16 and is approved OMB control number 2070-0060.

III. Do PR Notices contain binding requirements?

The PR Notice about the determination of a minor use is intended to provide guidance to EPA personnel and decision-makers and to pesticide registrants. While the requirements in the statutes and Agency regulations are binding on EPA and the applicants, this PR Notice is not binding on either EPA or pesticide registrants, and EPA may depart from the guidance where circumstances warrant and without prior notice. Likewise, pesticide registrants may assert that the guidance is not appropriate generally or not applicable to a specific pesticide or situation.
