SUPPLEMENTARY INFORMATION:

Title: Description: Risk Management Guidance for Higher Loan-to-Value

Lending Programs in Communities Targeted for Revitalization.

OMB Control No.: 1557-NEW.

Type of Review: Regular.

Abstract: Under the proposed bulletin, national banks and federal savings associations wishing to establish a program for originating certain owner-occupied residential mortgage loans where the loan-to-value (LTV) ratio at origination exceeds 100 percent in communities targeted for revitalization should have policies and procedures approved by their Board of Directors (Board), or an appropriately designated committee, that address the loan portfolio management, underwriting, and other relevant considerations for such loans. The bulletin advises that banks also should notify the appropriate OCC supervisory office in writing at least 30 days prior to the date the bank intends to begin originating residential loans pursuant to an approved program or implementing any substantive change to a previously submitted program and provide a copy of the approved policies and procedures to the OCC supervisory office.

Affected Public: Businesses or other for-profit.

Burden Estimates: *Estimated Number of Respondents:* 20.

Estimated Burden per Respondent for the First Year: Drafting Policies—200 hours; Documentation—10 hours per quarter (i.e., 40 hours); Reporting—10 hours.

Total Estimated Annual Burden: 5,000 hours.

Frequency of Response: On occasion.

The OCC issued a 60-day **Federal Register** notice regarding the collection on December 24, 2015, 80 FR 80458. The OCC received five comment letters on the information collection requirements contained in the bulletin, one from a group of three trade associations, two from community advocacy and homeownership non-profit organizations, one from a non-profit research and policy organization, and one from an individual.

The trade associations believed that the required processes explained in the proposed bulletin would be disproportionately burdensome for a *de minimis* volume of activity and that it would be impractical and unnecessary for banks to get board or committee approval of detailed policies in addition to quarterly reporting.

The OCC notes that existing regulations and guidelines permit an institution to make loans in excess of the supervisory loan-to-value (SLTV) ratio on an individual basis under specified conditions. The OCC is revising the bulletin to clarify that it
