

FDA regrets that it was unable to publish this notice 15 days prior to the June 28 and 29, 2016, Pediatric Oncology Subcommittee of the Oncologic Drugs Advisory Committee meeting. Because the Agency believes there is some urgency to bring these issues to public discussion and qualified members of the Pediatric Oncology Subcommittee of the Oncologic Drugs Advisory Committee meeting were available at this time, the Commissioner of Food and Drugs concluded that it was in the public interest to hold this meeting even if there was not sufficient time for the customary 15-day public notice.

This notice is issued under the Federal Advisory Committee Act (5 U.S.C. app. 2) and 21 CFR part 14, relating to the advisory committees.

Dated: June 16, 2016.

Jill Hartzler Warner,

Associate Commissioner for Special Medical Programs.

SUPPLEMENTARY INFORMATION:

I. Background

On February 21, 2014, FDA issued a **Federal Register** notice (79 FR 9908) announcing the availability of a final guidance for industry entitled “E2B (R3) Electronic Transmission of Individual Case Safety Reports (ICSRs) Implementation Guide—Data Elements and Message Specification” (ICH E2B(R3) guidance) and an appendix to the guidance entitled “ICSRs: Appendix to the Implementation Guide—Backwards and Forward Compatibility” (BFC appendix). The ICH E2B(R3) guidance and BFC appendix were issued as a package that included schema files and additional technical information to be used for creating compatible ICSR files. The preface to the ICH E2B(R3) implementation guidance makes clear that any future “technical specifications document associated with that guidance would be provided as a stand-alone document” but incorporated by reference into that guidance. Accordingly, in this notice, we are announcing the availability of a technical specifications document that will be incorporated into that final guidance.

This technical specifications document, which is available on the FDA Guidance Web page at <http://www.fda.gov/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/ucm274966.htm>, is to assist interested parties in electronically submitting individual case safety reports (ICSRs) (and any ICSR attachments) to CDER and CBER. This

document describes FDA’s technical approach for submitting ICSRs, for incorporating its regionally controlled terminology, and for adding its regional data elements that are not addressed in the ICH E2B (R3) guidance for the following FDA-regulated products: Drug products marketed for human use with approved new drug applications and abbreviated new drug applications; prescription drug products marketed for human use without an approved application; nonprescription (over-the-counter) human drug products marketed without an approved application; and biological products marketed for human use with approved biologic license applications.

II. Electronic Access

Persons with access to the Internet may obtain a copy of the FDA Regional Implementation Specifications for ICH E2B(R3) at <http://www.fda.gov/drugs/guidancecompliance/regulatoryinformation/surveillance/adversedrugeffects/ucm115894.htm>, <http://www.fda.gov/BiologicsBloodVaccines/GuidanceComplianceRegulatoryInformation/Guidances/default.htm>, or <http://www.regulations.gov>.

Dated: June 17, 2016.

Associate Commissioner for Policy.
