

handling Liquefied Natural Gas (LNG) or Liquefied Hazardous Gas (LHG), where the construction, expansion, or modification would result in an increase in the size and/or frequency of LNG or LHG marine traffic on the waterway associated with the facility, must submit a Letter of Intent (LOI) to the COTP of the zone in which the facility is located. Under 33 CFR 127.007(e), an owner or operator planning such an expansion must also file or update a Waterway Suitability Assessment (WSA) that addresses the proposed increase in LNG or LHG marine traffic in the associated waterway. Jefferson Railport Terminal 1 (Texas) LLC, located in Vidor, TX submitted an LOI and WSA on March 7, 2016, regarding the company's proposed construction and operation of LHG capabilities at its Vidor, TX facility.

Under 33 CFR 127.009, after receiving an LOI, the COTP issues a Letter of Recommendation (LOR) as to the suitability of the waterway for LNG or LHG marine traffic to the appropriate jurisdictional authorities. The LOR is based on a series of factors outlined in 33 CFR 127.009 that relate to the physical nature of the affected waterway and issues of safety and security associated with LNG or LHG marine traffic on the affected waterway.

The purpose of this notice is to solicit public comments on the proposed increase in LHG marine traffic on the Sabine-Neches Waterway. The Coast Guard believes that input from the public may be useful to the COTP with respect to development of the LOR. Additionally, the Coast Guard intends to task the Area Maritime Security Committee, Port Arthur, TX and the Southeast Texas Waterways Advisory Council with forming a subcommittee comprised of affected port users and stakeholders. The goal of this subcommittee will be to gather information to help the COTP assess the suitability of the associated waterway for increased LHG marine traffic as it relates to navigational safety and security.

On January 24, 2011, the Coast Guard published Navigation and Vessel Inspection Circular (NVIC) 01–2011, "Guidance Related to Waterfront Liquefied Natural Gas (LNG) Facilities". NVIC 01–2011 provides guidance for owners and operators seeking approval to build and operate LNG facilities. While NVIC 01–2011 is specific to LNG, it provides useful process information and guidance for owners and operators seeking approval to build and operate LHG facilities as well. The Coast Guard will refer to NVIC 01–2011 for process information and guidance in evaluating Jefferson Railport Terminal 1's WSA. A

copy of NVIC 01–2011 is available for viewing in the public docket for this notice and also on the Coast Guard's Web site at <http://www.uscg.mil/hq/cg5/nvic/2010s.asp>.

This notice is issued under authority of 33 U.S.C. 1223–1225, Department of Homeland Security Delegation Number 0170.1(70), 33 CFR 127.009, and 33 CFR 103.205.

Dated: May 27, 2016.

Captain, U.S. Coast Guard, Captain of the Port, Port Arthur.

OMB Number: 1651–0111.

Form Numbers: I–94 and I–94W.

Abstract

Background

CBP Forms I–94 (Arrival/Departure Record) and I–94W (Nonimmigrant Visa Waiver Arrival/Departure Record) are used to document a traveler's admission into the United States. These forms are filled out by aliens and are used to collect information on citizenship, residency, passport, and contact information. The data elements collected on these forms enable the Department of Homeland Security (DHS) to perform its mission related to the screening of alien visitors for potential risks to national security and the determination of admissibility to the United States. The Electronic System for Travel Authorization (ESTA) applies to aliens seeking to travel to the United States under the Visa Waiver Program (VWP) and requires that VWP travelers provide information electronically to CBP before embarking on travel to the

United States without a visa. Travelers who are entering the United States under the VWP in the air or sea environment, and who have a travel authorization obtained through ESTA, are not required to complete the paper Form I-94W.

Pursuant to an interim final rule published on March 27, 2013 in the **Federal Register** (78 FR 18457) related to Form I-94, CBP has partially automated the Form I-94 process. CBP now gathers data previously collected on the paper Form I-94 from existing automated sources in lieu of requiring passengers arriving by air or sea to submit a paper I-94 upon arrival. Passengers can access and print their electronic I-94 via the Web site at www.cbp.gov/I94.

ESTA can be accessed at: <https://esta.cbp.dhs.gov>. Samples of CBP Forms I-94 and I-94W can be viewed at: <http://www.cbp.gov/document/forms/form-i-94-arrivaldeparture-record> and <http://www.cbp.gov/document/forms/form-i-94w-visa-waiver-arrivaldeparture-record>.

Recent Changes

On December 18, 2015, the President signed into law the Visa Waiver Program Improvement and Terrorist Travel Prevention Act of 2015 as part of the Consolidated Appropriations Act of 2016. To meet the requirements of this new Act, DHS strengthened the security of the VWP by enhancing the ESTA application and Form I-94W. In two recent emergency submissions under the Paperwork Reduction Act, additional questions were added to ESTA and to Form I-94W that request information from applicants about countries to which they have traveled on or after March 1, 2011; countries of which they are citizens/nationals; countries for which they hold passports; and Global Entry Numbers.

Proposed Changes

DHS proposes to add the following question to ESTA and to Form I-94W: "Please enter information associated with your online presence—Provider/Platform—Social media identifier." It will be an optional data field to request social media identifiers to be used for vetting purposes, as well as applicant contact information. Collecting social media data will enhance the existing investigative process and provide DHS greater clarity and visibility to possible nefarious activity and connections by providing an additional tool set which analysts and investigators may use to better analyze and investigate the case.

Current Actions: This submission is being made to extend the expiration

date with a change to the information collected as a result of adding a question about social media to ESTA and to Form I-94W, as described in the Abstract section of this document. There are no changes to the burden hours or to the information collected on Form I-94, or the I-94 Web site.

SUPPLEMENTARY INFORMATION:

Background

Executive Order 13175 (65 FR 67249, published November 9, 2000) recognizes the right of Indian tribes to self-government and supports tribal sovereignty and self-determination. Among other things, it requires that agencies have an accountable process to ensure meaningful and timely input by tribal officials in developing policies that have tribal implications. On November 5, 2009, President Obama reaffirmed the government-to-government relationship between the Federal Government and Indian tribal governments in a White House memorandum that acknowledges that Indian tribes exercise inherent sovereign powers over their members and territory. The November 5, 2009, memorandum also acknowledged that the United States will continue to work with Indian tribes on a government-to-government basis to address issues concerning Indian tribal self-government, tribal trust resources, and Indian tribal treaty and other rights.

Development of HUD Tribal Government-to-Government Consultation Policy

Consistent with Executive Order 13175, and the Presidential memorandum of November 5, 2009, HUD undertook a series of consultations
