

Comments Received and Our Responses

Comments: On December 3, 2015, we published in the **Federal Register** (80 FR 75685) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on February 1, 2016. We did not receive any comments.

Request for Public Comments

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB and us in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Dated: June 17, 2016.

Tina A. Campbell,

Chief, Division of Policy, Performance, and Management Programs, U.S. Fish and Wildlife Service.

BILLING CODE 4333-15-P

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service**

**[FWS-R8-ES-2016-N079;
FXES1112080000-156-FF08EVEN00]**

**Low-Effect Habitat Conservation Plan
for the Morro Shoulderband Snail;
Mammen Parcel, Community of Los
Osos, San Luis Obispo County,
California**

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received

an application from Renee and Kurt Mammen for a 10-year incidental take permit (ITP) under the Endangered Species Act of 1973, as amended. The application addresses the potential for “take” of the federally endangered Morro shoulderband snail likely to result incidental to the construction and maintenance of a single-family residence on an existing legal parcel, associated infrastructure, and use of an existing access road in the unincorporated community of Los Osos, San Luis Obispo County, California. We invite comments from the public on the application package, which includes a draft low-effect habitat conservation plan (HCP) and draft low-effect screening form and environmental action statement, which constitutes our proposed National Environmental Policy Act (NEPA) compliance.

DATES: To ensure consideration, please send your written comments by July 25, 2016.

ADDRESSES: You may download a copy of the draft HCP and draft low-effect screening form and environmental action statement on the internet at <http://www.fws.gov/ventura/>, or you may request copies of the documents by U.S. mail to our Ventura office, or by phone (see **FOR FURTHER INFORMATION CONTACT**). Please address written comments to Stephen P. Henry, Field Supervisor, Ventura Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2493 Portola Road, Suite B, Ventura, CA 93003. You may alternatively send comments by facsimile to (805) 644-3958.

FOR FURTHER INFORMATION CONTACT: Julie M. Vanderwier, Senior Fish and Wildlife Biologist, at the Ventura office address or by phone at (805) 644-1766.

SUPPLEMENTARY INFORMATION: We have received an application for an incidental take permit (ITP) pursuant to section 10(a)(1)(B) of the Endangered Species Act (Act; 16 U.S.C. 1531 *et seq.*). The application addresses take of the federally endangered Morro shoulderband snail (*Helminthoglypta walkeriana*) likely to occur incidental to the construction and maintenance of a single-family residence and associated infrastructure and use of an existing access road. The requested permit term is 10 years and the permit would be subject to renewal. We invite comments from the public on the application package. Issuance of an ITP pursuant to this HCP has been determined to be eligible for a categorical exclusion under NEPA.

Background

The Morro shoulderband snail was listed as endangered on December 15, 1994 (59 FR 64613). Section 9 of the Act and its implementing regulations (16 U.S.C. 1531 *et seq.*) prohibit the take of fish or wildlife species listed as endangered or threatened. Under the Act, “take” is defined to include the following activities: “to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” (16 U.S.C. 1532). Under section 10(a)(1)(B) of the Act, we may issue permits to authorize take of listed species if it is incidental to other lawful activities and not the purpose of carrying out that activity. The Code of Federal Regulations provides those regulations governing incidental take permits for threatened and endangered species at 50 CFR 17.32 and 17.22. Issuance of an incidental take permit must not jeopardize the existence of any federally listed fish, wildlife or plant species.

The Applicant’s Proposed Project

The project involves the construction and maintenance of a single-family residence and associated infrastructure along with use of an existing access road to a legal parcel in the Bayview Heights subdivision of Los Osos, County of San Luis Obispo, California. The HCP provides the support necessary for the Service to issue an incidental take permit (ITP) that would authorize take, in this instance, of the Morro shoulderband snail (*Helminthoglypta walkeriana*). The County of San Luis Obispo requires demonstration that the property owner is in compliance with the Endangered Species Act of 1973, as amended (Act) as part of their permitting requirements.

The draft HCP contains two alternatives to the proposed action: “No Action” and “Project Redesign.” Under the “No Action” alternative, an ITP for the Mammen single-family residence would not be issued. The Mammen single-family residence could not legally be built and the mitigation fee would not be available to contribute to recovery actions for Morro shoulderband snail. Since the property is privately owned, there are ongoing economic considerations (*e.g.*, payment of property taxes) associated with continued ownership of a property and its intended use. The sale of the property for purposes (*e.g.*, as a conservation easement) other than the identified activity is not economically feasible. For these reasons, the “No Action” alternative has been rejected.

The "Project Redesign" alternative would involve design of a project that would reduce or avoid altogether take of Morro shoulderband snail. This alternative was not selected, due to the parcel's small size and marginal value to the long-term conservation of the Morro shoulderband snail of habitat on site. A reduction or redesign of the project footprint would not meet the applicants' needs and would not significantly reduce the effects of the taking of Morro shoulderband snail such that there would be a greater benefit to species survival and recovery. For these reasons, the "Project Redesign" alternative has also been rejected.

Our Preliminary Determination

We have determined that the applicants' proposal will have a minor or negligible effect on the Morro shoulderband snail and that the HCP qualifies for processing as a low-effect plan consistent with our Habitat Conservation Planning Handbook (November 1996). Three criteria form the basis for our determination: (1) The proposed project as described in the HCP would result in minor or negligible effects on federally listed, proposed, and/or candidate species and their habitats; (2) implementation of the HCP would result in minor negligible effects on other environmental values or resources; and (3) HCP impacts, considered together with those of other past, present, and reasonably foreseeable future projects, would not result in cumulatively significant effects. It is our preliminary determination that HCP approval and ITP issuance qualify for categorical exclusion under the NEPA (42 U.S.C. 4321 *et seq.*), as provided by the Department of the Interior implementing regulations in part 46 of title 43 of the Code of Federal Regulations (43 CFR 46.205, 46.210, and 46.215). However, we may revise our determination based upon review of public comments received in response to this notice.

Next Steps

We will evaluate the permit application, including the draft HCP and comments we receive, to determine whether it meets the requirements of section 10(a)(1)(B) of the Act. We will also evaluate whether issuance of the ITP would comply with section 7 of the Act by conducting an intra-Service consultation pursuant to section 7(a)(2).

Public Review

We request comments from the public regarding our preliminary determination that the applicant's proposal will have

a minor or negligible effect on the Morro shoulderband snail and that the HCP qualifies for processing as a low-effect. We will evaluate comments received and make a final determination regarding whether the application meets the requirements of section 10(a)(1)(B) of the Act. We will incorporate the results of our intra-Service consultation, in combination with the above findings, in our final analysis to determine whether to issue the ITP. If all of our requirements are met, we will issue the ITP to the applicant. Permit issuance would not occur less than 30 days after the date of this notice.

Public Comments

If you wish to comment on the permit application, HCP, and associated documents, you may submit comments by any one of the methods provided in **ADDRESSES**.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public view, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10(c) of the Act and the NEPA public involvement regulations (40 CFR 1500.1(b), 1500.2(d), and 1506.6).

Dated: June 15, 2016.

Stephen P. Henry,

Field Supervisor, Ventura Fish and Wildlife Office, Ventura, California.

Renewal of Agency Information Collection for Energy Resource Development Program Grants

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of submission to OMB.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Bureau of Indian Affairs (BIA) has submitted to the Office of Management

and Budget (OMB) a request for renewal of the collection of information for grants under the Office of Indian Energy and Economic Development, Energy and Mineral Development Program, authorized by OMB Control Number 1076-0174. This information collection expires June 30, 2016.

DATES: Interested persons are invited to submit comments on or before July 25, 2016.

ADDRESSES: Please submit your comments to the Desk Officer for the Department of the Interior at the Office of Management and Budget, by facsimile to (202) 395-5806 or you may send an email to: *OIRA_Submission@omb.eop.gov*. Also please send a copy of your comments to Rebecca Naragon, U.S. Department of the Interior, Office of Indian Energy and Economic Development, 1951 Constitution Avenue NW., MS-16-SIB, Washington, DC 20245; email: *Rebecca.Naragon@bia.gov*.

FOR FURTHER INFORMATION CONTACT:

Rebecca Naragon, U.S. Department of the Interior, Office of Indian Energy and Economic Development, 1951 Constitution Avenue NW., MS-16-SIB, Washington, DC 20245; email: *Rebecca.Naragon@bia.gov*. You may review the information collection request online at <http://www.reginfo.gov>. Follow the instructions to review Department of the Interior collections under review by OMB.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Energy Policy Act of 2005, 25 U.S.C. 3502(a)(2)(B) authorizes the Secretary of the Interior to provide grants to assist Indian Tribes in the development of energy resources and further the goal of Indian self-determination.

The Office of Indian Energy and Economic Development (IEED) administers and manages the energy resource development grant program under the Energy and Minerals Development Program (EMDP). Congress may appropriate funds to EMDP on a year-to-year basis. When funding is available, IEED may solicit proposals for energy resource development projects from Indian Tribes and Tribal energy resource development organizations for use in carrying out projects to promote the integration of energy resources, and to process, use or develop those energy resources on Indian land. The projects may be in the areas of exploration, assessment, development, feasibility, or market studies. Indian Tribes that
