A supplement to the complaint was filed on June 1, 2016. The complaint, as supplemented, alleges violations of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain inflatable products with tensioning structures and processes for making the same by reason of infringement of certain claims of U.S. Patent No. 8,562,773 ("the '773 patent") and U.S. Patent No. 9,156,203 ("the '203 patent"). The complaint further alleges that an industry in the United States exists as required by subsection (a)(2) of section 337.

Scope of Investigation: Having considered the complaint, the U.S. International Trade Commission, on June 20, 2016, *ordered that*—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, as amended, an investigation be instituted to determine whether there is a violation of subsection (a)(1)(B) of section 337 in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain inflatable products with tensioning structures and processes for making the same by reason of infringement of one or more of claims 1-5 of the '773 patent and claims 1, 6-10, and 12-29 of the '203 patent, and whether an industry in the United States exists as required by subsection (a)(2) of section 337;

(2) Notwithstanding any Commission Rules that would otherwise apply, the presiding Administrative Law Judge shall hold an early evidentiary hearing, find facts, and issue an early decision, as to whether the complainant has satisfied the economic prong of the domestic industry requirement. Any such decision shall be in the form of an initial determination (ID). Petitions for review of such an ID shall be due five calendar days after service of the ID; any replies shall be due three business days after service of a petition. The ID will become the Commission's final determination 30 days after the date of service of the ID unless the Commission determines to review the ID. Any such review will be conducted in accordance with Commission Rules 210.43, 210.44, and 210.45, 19 CFR 210.43, 210.44, and 210.45. The Commission expects the issuance of an early ID relating to the economic prong of the domestic industry requirement within 100 days of

institution, except that the presiding ALJ may grant a limited extension of the ID for good cause shown. The issuance of an early ID finding that complainants do not satisfy the economic prong of the domestic industry requirement shall stay the investigation unless the Commission orders otherwise; any other decision shall not stay the investigation or delay the issuance of a final ID covering the other issues of the investigation.

(3) For the purpose of the investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

Extensions of time for submitting responses to the complaint and the notice of investigation will not be granted unless good cause therefor is shown.
