

3003, of the completion of an inventory of human remains and associated funerary objects under the control of the Museum of Anthropology at Washington State University. The human remains and associated funerary objects were removed from Chagvan Bay, AK.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by the Museum of Anthropology at Washington State University in conjunction with the Native Village of Goodnews Bay, and the Platinum Traditional Village.

History and Description of the Remains

In 1962, human remains representing, at minimum, three individuals were removed from the archeological site known in the Alaska system as site XHI-001, in Chagvan Bay, AK. The burial was found eroding out of the south spit area of the Bay and was collected by archeologists from Washington State University, led by Dr. Robert Ackerman, who was doing studies in the vicinity. The human remains have been in Dr. Ackerman's research lab since 1962. No published description or analysis of the human remains has been done. No known individuals were identified. The four associated funerary objects are 1 semi-lunar metal knife blade, 1 metal knife blade, and 2 tabular stones.

The human remains represent one female and two males, all of whom are adults. All were found in a single burial box. The associated funerary objects are of historic manufacture, dating the human remains to the historic period. Geographical, archeological, and historical information suggest that the area of Chagvan Bay is within the traditional subsistence territory of the communities of the Native Village of Goodnews Bay and the Platinum Traditional Village.

Determinations Made by the Museum of Anthropology at Washington State University

Officials of the Museum of Anthropology at Washington State University have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of three individuals of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(3)(A), the four objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Native Village of Goodnews Bay and Platinum Traditional Village.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Mary Collins, Director of the Museum of Anthropology at Washington State University, Pullman, WA 99164-49140, telephone (509) 592-6929, email collinsm@wsu.edu, by July 27, 2016. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to the Native Village of Goodnews Bay and Platinum Traditional Village may proceed.

The Museum of Anthropology at Washington State University is responsible for notifying the Native Village of Goodnews Bay and Platinum Traditional Village that this notice has been published.

The complaint alleged a violation of Section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain chassis parts incorporating movable sockets and components thereof by reason of infringement of one or more of claims 1-5 of U.S. Patent No. 6,202,280 patent. *Id.* The Commission's Notice of Investigation named Mevotech, L.P. of Toronto, Canada (Mevotech) as a respondent and the Office of Unfair Import Investigations (OUII) as a party. *Id.*

The ALJ concluded that the private parties complied with Commission Rule 210.21(b)(1), which governs termination based on a settlement agreement, and that terminating the investigation on the basis of the settlement poses no threat to the public interest. *Id.* at 2-3. No parties petitioned for review of the Subject ID.

The Commission hereby determines to not review the Subject ID. This investigation is terminated.
