Cohort” (the “Cohort”). In brief, EEOICPA authorizes HHS to designate such classes of employees for addition to the Cohort when NIOSH lacks sufficient information to estimate with sufficient accuracy the radiation doses of the employees, and if HHS also finds that the health of members of the class may have been endangered by the radiation dose the class potentially incurred. HHS must also obtain the advice of the Advisory Board on Radiation and Worker Health (the “Board”) in establishing such findings. On May 28, 2004, HHS issued a rule that established procedures for adding such classes to the Cohort (42 CFR part 83). The rule was amended on July 10, 2007.

The HHS rule authorizes a variety of respondents to submit petitions. Petitioners are required to provide the information specified in the rule to qualify their petitions for a complete evaluation by HHS and the Board. HHS has developed two forms to assist the petitioners in providing this required information efficiently and completely. Form A is a one-page form to be used by EEOICPA claimants for whom NIOSH has attempted to conduct dose reconstructions and has determined that available information is not sufficient to complete the dose reconstruction. Form B, accompanied by separate instructions, is intended for all other petitioners. Forms A and B can be submitted electronically as well as in hard copy. Respondent/petitioners should be aware that HHS is not requiring respondents to use the forms. Respondents can choose to submit petitions as letters or in other formats, but petitions must meet the informational requirements stated in the rule. NIOSH expects, however, that all petitioners for whom Form A would be appropriate will actually use the form, since NIOSH will provide it to them upon determining that their dose reconstruction cannot be completed and encourage them to submit the petition. NIOSH expects the large majority of petitioners for whom Form B would be appropriate will also use the form, since it provides a simple, organized format for addressing the informational requirements of a petition.

NIOSH will use the information obtained through the petition for the following purposes: (a) Identify the petitioner(s), obtain their contact information, and establish that the petitioner(s) is qualified and intends to petition HHS; (b) establish an initial definition of the class of employees being proposed to be considered for addition to the Cohort; (c) determine whether there is justification to require HHS to evaluate whether or not to designate the proposed class as an addition to the Cohort (such an evaluation involves potentially extensive data collection, analysis, and related deliberations by NIOSH, the Board, and HHS); and, (d) target an evaluation by HHS to examine relevant potential limitations of radiation monitoring and/or dosimetry-relevant records and to examine the potential for related radiation exposures that might have endangered the health of members of the class.

Finally, under the rule, petitioners may contest the proposed decision of the Secretary to add or deny adding classes of employees to the cohort by submitting evidence that the proposed decision relies on a record of either factual or procedural errors in the implementation of these procedures. NIOSH estimates that the time to prepare and submit such a challenge is 5 hours. Because of the uniqueness of this submission, NIOSH is not providing a form. The submission will typically be in the form of a letter to the Secretary.

The estimated annual Burden Hours are 41. There are no costs to respondents unless a respondent/petitioner chooses to purchase the services of an expert in dose reconstruction, an option provided for under the rule.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of
the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570 or send an email to omb@cdc.gov. Written comments and/or suggestions regarding the items contained in this notice should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395–5806. Written comments should be received within 30 days of this notice.

Proposed Project

Background and Brief Description

In an effort to refocus attention on domestic HIV and AIDS, CDC launched the Act Against AIDS (AAA) initiative in 2009 with the White House and the U.S. Department of Health and Human Services. AAA is a multifaceted national communication initiative that supports reduction of HIV incidence in the U.S. through multiple, concurrent communication and education campaigns for a variety of audiences including, the general public, populations most affected by HIV and health care providers. All campaigns support the comprehensive HIV prevention efforts of CDC and the National HIV/AIDS Strategy.

Within this context, the CDC’s Division of HIV/AIDS Prevention Programs (DHAP) is implementing various partnership activities to increase HIV awareness among the general public, reduce new HIV infections among disproportionately impacted populations, and improve health outcomes for people living with HIV and AIDS in United States and its territories. For example, DHAP is funding the “Enhancing HIV Prevention Communication and Mobilization Efforts through Strategic Partnerships” program. Partners funded under the partnership program will (1) support the dissemination of Act Against AIDS (AAA) campaign materials, messaging, and other CDC resources that support HIV prevention and (2) implement national engagement efforts focusing on HIV prevention and awareness. Partners represent civil, media, and LGBT-focused organizations.

In addition, DHAP will continue to support the Business Responds to AIDS (BRTA) program. Founded in 1992, the purpose of the BRTA program is to engage and support the private sector in promoting HIV education, awareness, and policies in the workplace. This partnership between CDC, business, labor, and the public health sector aims to encourage businesses to implement HIV/AIDS policies and education programs in the workplace with the overarching goal of increasing public understanding of, involvement in, and support for HIV prevention. Other partnership efforts serve the same purpose: To increase HIV awareness among the general public, reduce new HIV infections among disproportionately impacted populations, and improve health outcomes for people living with HIV and AIDS in the United States and its territories.

The project will evaluate the extent to which activities implemented by partners meet the initiative’s goals for disseminating, communicating, and engaging the public in HIV prevention and education activities. We will collect information from partners on their activities for disseminating HIV messages through materials distribution at national and local events, media and advertising, HIV testing facilitation, and formation and coordination of strategic partnerships; barriers and facilitators to implementation of these activities, and factors that may help contextualize their progress towards meeting the initiative’s goals; and their involvement in promoting HIV education, awareness, and policies in their organization. We will collect this information through these five sources: (a) Metrics Database: Partners will be required to report quarterly data to CDC and CDC’s evaluation contractor through a metrics database. (b) Biannual key informant interviews: The point of contacts from some partner organizations will be interviewed twice yearly via telephone. (c) Interim Progress Reports: Partners will complete a standardized progress report on a biannual basis via a user-friendly electronic form. The progress reports will gather information on key successes, facilitators and barriers, and major achievements. (d) Partner Survey: Partners will complete a brief online survey to assess their involvement in promoting HIV education, awareness, and policies in their organization. (e) Partnerships Activities Form: Partners may be asked to complete a brief electronic form to provide information on each partner activity that they complete. The form will collect information on information such as the type of event, the audience, and key highlights; the number of HIV tests administered (if any) and the number of preliminary positives; the number and type of materials distributed. This information will allow CDC to know what partners are doing to advance HIV prevention and education, and how CDC can alter their partnership efforts to facilitate HIV prevention and education in the future. The organization (and not the individual) will be the unit of analysis. As such, no personally individually identifiable information will be collected.

There is no cost to participants other than their time. The total estimated annualized burden hours are 5,083.
Leroy A. Richardson,  
Chief, Information Collection Review Office,  
Office of Scientific Integrity, Office of the  
Associate Director for Science, Office of the  
Director, Centers for Disease Control and  
Prevention.

Submission for OMB Review;  
Comment Request

Title: ACF–OGM–PPR-Form B—  
Program Indicators.

OMB No.: 0970–0406.

Description: The Office of Grants  
Management (OGM), in the  
Administration for Children and  
families (ACF) is proposing the  
collection of program performance data  
for ACF’s discretionary grantees. To  
collect this data OGM has developed a  
form from the basic template of the  
OMB-approved reporting format of the  
Program Performance Report. OGM will  
use this data to determine if grantees are  
proceeding in a satisfactory manner in  
meeting the approved goals and  
objectives of the project, and if funding  
should be continued for another budget  
period.

The requirement for grantees to report  
on performance is OMB grants policy.

Estimated Total Annual Burden Hours: 6000.

Additional Information: Copies of the  
proposed collection may be obtained by  
writing to the Administration for  
Children and Families, Office of  
Planning, Research and Evaluation, 370  
L’Enfant Promenade, SW., Washington,  
DC 20447, Attn: ACF Reports Clearance  
Officer. All requests should be  
identified by the title of the information  
collection. Email address:  
infocollection@acf.hhs.gov.

OMB Comment: OMB is required to  
take a decision concerning the  
collection of information between 30  
and 60 days after publication of this  
document in the Federal Register.  
Therefore, a comment is best assured of  
having its full effect if OMB receives it  
within 30 days of publication. Written  
comments and recommendations for the  
proposed information collection should  
be sent directly to the following: Office  
of Management and Budget, Paperwork  
Reduction Project, Email: OIRA_  
SUBMISSION@OMB.EOP.GOV, Attn:  
Robert Sargis, Reports Clearance Officer.

DEPARTMENT OF HEALTH AND  
HUMAN SERVICES

Submission for OMB Review;  
Comment Request

Title: National Medical Support  
Notice

OMB No.: 0970–0222

Description: The National Medical  
Support Notice (NMSN) is a two-part  
document that requires information  
from State child support enforcement  
agencies, employers, and health plan  
administrators to assist in enforcing  
health care coverage provisions in a  
child support order. The Department of  
Health and Human Services (DHHS),  
Administration for Children and  
families (ACF) developed and  
maintains part A of the NMSN, which  
is sent to an obligor’s employer for  
completion; the Department of Labor  
(DOL) developed and maintains part B  
of the NMSN, which is provided to  
health care administrators following  
completion of part A.

DOL revised part B to conform with  
changes to the currently approved part  
A and is seeking a three-year approval  
from OMB. To avoid burdening the  
State child support enforcement  
agencies with potential reprogramming  
and future changes to the currently  
approved part A or B, ACF is resubmitting an  
unchanged information collection  
package and requesting an extension to  
the current OMB approval of NMSN  
part A to synchronize the expiration  
date with NMSN part B.

Respondents: State child support  
enforcement agencies, employers, and  
health plan administrators.
