

○ Planting, burning, and other activities to encourage reforestation on approximately 69,360 acres of understocked areas that were previously forested.

- Decommission approximately 230 miles of existing system and unauthorized roads on the Coconino and Apache-Sitgreaves NFs.
- Decommission approximately 20 miles of unauthorized roads on the Tonto NF.
- Improve approximately 150 miles of existing non-system roads and construct approximately 350 miles of temporary roads for haul access; decommission when treatments are completed.
- Relocate and reconstruct existing open roads adversely affecting water quality and natural resources, or of concern to human safety.
- Restore hydrologic function and vegetation on approximately 9,570 acres of meadows.
- Restore approximately 184 springs.
- Restore function in up to 470 miles of riparian streams and intermittent and ephemeral stream channels (non-riparian).
- Restore up to 360 miles of stream habitat for threatened, endangered, and sensitive aquatic species.
- Construct up to 200 miles of protective barriers around springs, aspen, Bebb's willows, and big-tooth maples, as needed for restoration.

Possible Alternatives

A full range of alternatives to the proposed action, including a no action alternative, will be considered. The no action alternative represents no change and serves as the baseline for the comparison of the action alternatives.

Forest Plan Amendments

To meet the project's purpose and need, the existing Coconino and Tonto Forest Plans would need to be amended to provide for areas of grass, forbs, and shrubs interspersed with tree groups and allow for treatments to move tree group patterns, interspaces, and stand density toward the natural range of variability. Amending these forest plans would allow for treatments that improve MSO nesting and roosting habitat as defined in the Mexican spotted owl recovery plan. The desired conditions related in the project's purpose and need are consistent with the revised Apache-Sitgreaves Forest Plan. Amendments to the Coconino and Tonto Forest Plans would provide consistency in meeting desired conditions for ponderosa pine and mixed conifer forests across the Rim Country project area.

Lead and Cooperating Agencies

Cooperating Agency status has been designated to the Arizona Game and Fish Department (Department) to assist the Apache-Sitgreaves, Tonto, and Coconino National Forests in the preparation of the 4FRI Rim Country EIS, pursuant to the terms the Master Memorandum of Understanding (10-MU-11031600-019) between the Department and the Forest Service.

Responsible Official

The responsible officials are the Apache-Sitgreaves, Coconino, and Tonto National Forest Supervisors.

Nature of Decision To Be Made

Given the purpose and need of the project, the forest supervisors will review the proposed action, other alternatives, and the environmental effects analysis in order to determine: (1) Which alternative, or combination of alternatives, should be implemented; (2) the location and treatment methods for all restoration activities; (3) the design features, mitigation measures and monitoring requirements; and, (4) consistency with the forest plans in place at the time of the decision and the need for amendments.

Scoping Process

This notice of intent initiates the scoping process for the 4FRI Rim Country Project, which guides the development of the environmental impact statement. Public meetings are planned during the scoping period for the purposes of discussing and gathering comments on the proposed action. Meetings are planned on Thursday, July 14 in Show Low, AZ, and on Thursday, July 21 in Payson, AZ. For times and locations and other scheduled meetings, please visit the 4FRI Web site: <http://www.fs.usda.gov/goto/4FRIrimCountry>. Please contact Annette Fredette at (928) 226-4684 for additional information.

The intent of this comment period is to provide those interested in or affected by this proposed action with an opportunity to make their concerns known. Written, hand-delivered, electronic, and facsimile comments concerning this proposed action will be accepted. We invite you to provide any substantive comments you might have regarding the proposed action for the 4FRI Rim Country Project, those that are within the scope of the project and the decision to be made, are specific to the proposed activities and the project area, and have a direct relationship to the project. Please provide supporting reasons for us to consider. If you cite or include references with your comments,

you need to state specifically how those references relate to the proposed action. Please include hard copies or internet links to any references to which you refer. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

This proposed project is an action implementing three land management plans and is subject to the objection process described in 36 CFR 218 Subparts A and B. As such, individuals and organizations wishing to be eligible to file a predecisional objection must meet the information requirements in 36 CFR 218. Names and contact information submitted with comments will become part of the public record and may be released under the Freedom of Information Act. However, comments submitted anonymously will also be accepted and considered.

Dated: June 20, 2016.

Scott Russell,

4FRI Chief Executive.
