Abstract: The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7(a) requires that any person who produces pesticides or pesticide devices subject to the Act must register with the Administrator of EPA the establishment in which the pesticide or the device is produced. This Section further requires that application for registration of any establishment shall include the name and address of the establishment and of the producer who operates such an establishment.

FIFRA Section 7(c) requires that any producer operating an establishment registered under Section 7 report to the Administrator within 30 days after it is registered, and annually thereafter by March 1st for certain pesticide/device production and sales/distribution information. The producers must report which types and amounts of pesticides, active ingredients, or devices are currently being produced, were produced during the past year, and sold or distributed in the past year. The supporting regulations at 40 CFR part 167 provides the requirements and time schedules for submitting production information.

During January 2016, an option has been added to allow pesticide establishment producers to electronically enter and submit their establishment registration information

and pesticide production information through EPA's Central Data Exchange (CDX). A supplemental explanation is detailed in Section 5(b) of the Supporting Statement.

EPA received comments in response to the previously provided public review opportunity issued in the **Federal Register** on June 15, 2015 (80 FR 34153), which are addressed in this ICR. FOR FURTHER INFORMATION CONTACT: Lily G. Negash, Field and External Affairs Division (7506P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: 703-347-8515; email address: negash.lily@epa.gov.

SUPPLEMENTARY INFORMATION:

Docket: Supporting documents, including the ICR that explains in detail the information collection activities and the related burden and cost estimates that are summarized in this document, are available in the docket for this ICR. The docket can be viewed online at <http://www.regulations.gov> or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The renewal of this information collection request will enable the EPA to collect the information needed to evaluate an application for a pesticide registration, as required under section 3 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA). Under FIFRA, EPA must evaluate pesticides thoroughly before they can be marketed and used in the United States, to ensure that they will not pose unreasonable adverse effects to human health and the environment. Pesticides that meet this test are granted a license or "registration" which permits their distribution, sale and use according to requirements set by EPA to protect human health and the environment.

Form Numbers: EPA Forms 8570-1, 8570-4, 8570-27, 8570-34, 8570-35, 8570-36, 8570-37.

Respondents/affected entities: 1,751.
Respondent's obligation to respond: Required to obtain or retain a benefit under section 3 of FIFRA, and implementing regulations 40 CFR parts 152, 156 and 158.

Estimated number of responses: 8,203 (total).

Frequency of response: On occasion.
Total estimated burden: 1,524,893 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$108,720,767 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a net increase of 1,356,689 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. The increase is the result of EPA's updating of the methodology used to estimate the paperwork burden that involves the addition of previously unaccounted for burden for study data generation; while a decrease of approximately 23,000 hours reflects EPA's receipt of fewer number of applications. These changes are an adjustment.
