SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we finalize the CCP process for the Refuge. We started this process through a notice in the **Federal Register** (74 FR 49399; September 28, 2009). For more information about the history of the Refuge, see that notice. We also released the draft CCP/EA to the public and requested comments through a notice in the **Federal Register** (80 FR 7876; February 12, 2015).

We announce our decision and the availability of the FONSI and the final CCP in accordance with National Environmental Policy Act (40 CFR 1506.6(b)) requirements. We completed an analysis of impacts on the human environment in the draft CCP/EA. The CCP will guide management of the Refuge for 15 years, or until it is revised, and actions will be implemented as funding becomes available.

We selected a slightly modified Alternative D for implementation. We made changes and clarifications to the final CCP, where appropriate, to address public comments we received on the draft CCP/EA. A summary of the public comments is included in the final CCP with our responses.

Background

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Refuge Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management

direction on conserving wildlife and their habitats, CCPs identify compatible wildlife-dependent recreational opportunities available to the public. We will review and update the CCP at least every 15 years in accordance with the Refuge Administration Act.

Selected Alternative

Under the selected alternative, we will expand long-term protections and population and habitat enhancements for migratory seabirds and the endangered nēnē (Hawaiian goose, *Branta sandvicensis*). We will restore native coastal plant communities. Priority research, inventories, monitoring, and other scientific assessments will increase.

The majority of public use activities offered at the Refuge will continue to revolve around wildlife observation and photography, environmental education, and interpretation located on Kilauea Point proper (Point) or at the Kilauea Road terminus (Overlook). We will offer guided interpretive hikes on Crater Hill, and our outreach, environmental education, and volunteer programs will be expanded.

To address transportation issues at the Point and Overlook, we will implement short-, medium-, and long-term strategies in a phased manner. The Kāhili Quarry area will continue to be open 24 hours a day to some wildlife-dependent uses (fishing, wildlife observation, and photography) and as public access to off-Refuge areas (Kilauea River, Kilauea Bay, and Kāhili Beach) for boating and other stream, beach, and ocean uses. Traditional cultural practices, such as native Hawaiian fishing at Kilauea (East) Cove, will remain open.

The Refuge will maintain current infrastructure; however, a step-down Master Site Plan will be developed to evaluate and detail building use and remodeling/maintenance needs. We will develop a new maintenance baseyard (e.g., storage sheds, bays, pole barns, and nursery) off-Refuge.

Endangered and Threatened Wildlife and Plants; Enhancement of Survival Permit Applications; Greater Sage-Grouse Umbrella Candidate Conservation Agreement With Assurances for Wyoming Ranch Management

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received applications for enhancement of survival permits (EOS permits) under the Endangered Species Act of 1973, as amended (Act), pursuant to the Greater Sage-grouse Umbrella Candidate Conservation Agreement with Assurances for Wyoming Ranch Management (Umbrella CCAA). The permit applications, if approved, would authorize incidental take associated with implementation of specified individual Candidate Conservation Agreements with Assurances (individual CCAAs) developed in accordance with the Umbrella CCAA. We invite the public to comment on the EOS permit applications described below. The Act requires that we invite public comment before issuing these permits.

DATES: To ensure consideration, please send your written comments by August 5, 2016.

ADDRESSES: *Submitting Comments:* Send written comments by one of the following methods. Please specify the permit(s) you are commenting on by relevant number(s) (e.g., Permit No. TE-XXXXXX).

- *U.S. mail:* Tyler Abbott, Wyoming Ecological Services Field Office (ESFO), U.S. Fish and Wildlife Service, 5353 Yellowstone Road, Suite 308A, Cheyenne, WY 82009.

- *Email:* tyler_abbott@fws.gov.

- *Fax:* Tyler Abbott, (307) 772-2358.

Reviewing Documents: You may review copies of the enhancement of survival permit applications during

regular business hours at the Wyoming ESFO (see address above). You may also request hard copies by telephone at (307) 772-2374, ext. 231, or by letter to the Wyoming ESFO. Please specify the permit(s) you are interested in by relevant number(s) (e.g., Permit No. TE-XXXXXX).

FOR FURTHER INFORMATION CONTACT: Tyler Abbott, U.S. Fish and Wildlife Service, (307) 772-2374, ext. 231 (phone); tyler_abbott@fws.gov (email).

SUPPLEMENTARY INFORMATION:

Background

A Candidate Conservation Agreement with Assurances is an agreement with the Service in which private and other non-Federal landowners voluntarily agree to undertake management activities and conservation efforts on their properties to enhance, restore, or maintain habitat to benefit species that are proposed for listing under the Act, that are candidates for listing, or that may become candidates. The Service and several State, Federal, and local partners developed the Umbrella CCAA (available at <http://www.fws.gov/wyominges>) to provide Wyoming ranchers with the opportunity to voluntarily conserve greater sage-grouse and its habitat while carrying out their ranching activities. The Umbrella CCAA was made available for public review and comment on February 7, 2013 (see 78 FR 9066), and was executed by the Service on November 8, 2013.

Pursuant to the Umbrella CCAA, ranchers in Wyoming may apply for an EOS permit under the Act by agreeing to implement certain conservation measures for the greater sage-grouse on their properties. These conservation measures are specified in individual CCAs for their properties, which are developed in accordance with the Umbrella CCAA and are subject to the terms and conditions stated in that agreement. Landowners consult with the Service and other participating agencies to develop an individual CCAA for their property, and submit it to the Service for approval with their EOS permit application. If we approve the individual CCAA and EOS permit application, we will issue an EOS permit, under section 10(a)(1)(A) of the Act (16 U.S.C. 1531 *et seq.*), that authorizes incidental take of greater sage-grouse that results from activities covered by the individual CCAA, should the species become listed. Through the Umbrella CCAA and the individual CCAA and EOS permit, we also provide assurances to participating landowners that, if the greater sage-grouse is listed, and so long as they are

properly implementing their individual CCAA, we will not require any conservation measures with respect to greater sage-grouse in addition to those provided in the individual CCAA or impose additional land, water, or financial commitments or restrictions on land, water, or resource use in connection with the species. The EOS permit would become effective on the effective date of listing of the greater sage-grouse as endangered or threatened, and would continue through the end of the individual CCAA's 20-year term. Regulatory requirements and issuance criteria for EOS permits through a CCAA are found in 50 CFR 17.22(d) and 17.32(d), as well as 50 CFR part 13.

Applications Available for Review and Comment

We invite local, State, and Federal agencies and the public to comment on the following EOS permit applications. The Umbrella CCAA, as well as the individual CCAs submitted with the permit applications, are also available for review, subject to the requirements of the Privacy Act (5 U.S.C. 552a) and Freedom of Information Act (5 U.S.C. 552). The following applicants request approval of EOS permits for the greater sage-grouse, pursuant to the Umbrella CCAA, for the purpose of enhancing the species' survival.
