## NUCLEAR REGULATORY COMMISSION

### Advisory Committee on Reactor Safeguards (ACRS), Meeting of the ACRS Subcommittee on Plant Operations and Fire Protection; Notice of Meeting

The ACRS Subcommittee on Plant Operations and Fire Protection will hold a meeting on July 28, 2016, at the U.S. NRC Region II Office, 245 Peachtree Center Avenue NE., 8th floor, Salon A, Atlanta, Georgia 30303-1257.

The meeting will be open to public attendance. Visitors wishing to attend that meeting must report to the NRC Security Desk on the 8th floor.

The agenda for the subject meeting shall be as follows:

**Thursday, July 28, 2016—8:00 a.m. Until 2:00 p.m.**

The Subcommittee will meet with Region II staff to discuss items of mutual interest. The Subcommittee will hear presentations by and hold discussions with representatives of the NRC staff and other interested persons regarding this matter. The Subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the Full Committee.

Members of the public desiring to provide oral statements and/or written comments should notify the Designated Federal Official (DFO), Derek Widmayer (Telephone 301-415-5375 or Email:

[Derek.Widmayer@nrc.gov](mailto:Derek.Widmayer@nrc.gov)) five days prior to the meeting, if possible, so that appropriate arrangements can be made. Thirty-five hard copies of each presentation or handout should be provided to the DFO thirty minutes before the meeting. In addition, one electronic copy of each presentation should be emailed to the DFO one day before the meeting. If an electronic copy cannot be provided within this timeframe, presenters should provide the DFO with a CD containing each presentation at least thirty minutes before the meeting. Electronic recordings will be permitted only during those portions of the meeting that are open to the public. Detailed procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on October 21, 2015 (80 FR 63846).

Detailed meeting agendas and meeting transcripts are available on the NRC Web site at <http://www.nrc.gov/reading-rm/doc-collections/acrs>. Information regarding topics to be discussed, changes to the agenda, whether the meeting has been canceled or rescheduled, and the time allotted to present oral statements can be obtained from the Web site cited above or by contacting the identified DFO. Moreover, in view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with these references if such rescheduling would result in a major inconvenience.

Dated: June 29, 2016.

Mark L. Banks,

Chief, Technical Support Branch, Advisory Committee on Reactor Safeguards.

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

[Docket No. 40-9092; NRC-2013-0164]

### Reno Creek In Situ Uranium Recovery Project in Campbell County, Wyoming

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Draft supplemental environmental impact statement; request for comment.

**SUMMARY:** By letter dated October 3, 2012, AUC LLC (AUC) submitted an application to the U.S. Nuclear Regulatory Commission (NRC) for a new source and byproduct materials license for the proposed Reno Creek *In Situ*

Uranium Recovery (ISR) Project (Reno Creek ISR Project) proposed to be located in Campbell County, Wyoming. The NRC is issuing for public comment a Draft Supplemental Environmental Impact Statement (Draft SEIS) for the Reno Creek ISR Project. The Draft SEIS is Supplement 6 to NUREG-1910, "Generic Environmental Impact Statement for *In Situ* Leach Uranium Milling Facilities."

**DATES:** Submit comments by August 22, 2016. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

**ADDRESSES:** You may submit comments by any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2013-0164. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Cindy Bladey, Office of Administration, Mail Stop: OWFN-12-H8, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on accessing information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

**FOR FURTHER INFORMATION CONTACT:** Jill Caverly, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-7674; email: [Jill.Caverly@nrc.gov](mailto:Jill.Caverly@nrc.gov).

**SUPPLEMENTARY INFORMATION:**

### I. Obtaining Information and Submitting Comments

#### A. Accessing Information

Please refer to Docket ID NRC-2013-0164 when contacting the NRC about the availability of information regarding this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2013-0164.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select

“ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The Draft SEIS (NUREG–1910, Supplement 6) is available in ADAMS under Accession Number ML16181A082. NUREG–1910 is available in ADAMS under Accession Numbers ML091480244 (Volume 1) and ML091480188 (Volume 2).

- *NRC’s PDR*: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

### B. Submitting Comments

Please include Docket ID NRC–2013–0164 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

## II. Further Information

Under the NRC’s environmental protection regulations in part 51 of title 10 of the *Code of Federal Regulations* (10 CFR), which implement the National Environmental Policy Act of 1969 (NEPA), preparation of an Environmental Impact Statement (EIS) or supplement to an EIS (SEIS) is required for issuance of a license to possess and use source material for uranium milling (see 10 CFR 51.20(b)(8)).

In May 2009, the NRC staff issued NUREG–1910, “Generic Environmental Impact Statement for *In Situ* Leach Uranium Milling Facilities” (herein referred to as the GEIS). In the GEIS, the NRC assessed the potential environmental impacts from

construction, operation, aquifer restoration, and decommissioning of an *in situ* leach uranium milling facility (also known as an ISR facility) located in four specific geographic regions of the western United States. The proposed Reno Creek ISR Project is located within the Wyoming East Uranium Milling Region identified in the GEIS. The Draft SEIS supplements the GEIS and incorporates by reference relevant portions from the GEIS, and uses site-specific information from AUC’s license application and independent sources to fulfill the requirements in 10 CFR 51.20(b)(8).

The Draft SEIS for the proposed Reno Creek ISR Project may also be accessed on the Internet at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/> by selecting “NUREG–1910” and then “Supplement 6,” or on the NRC’s Reno Creek ISR Project Web page at <http://www.nrc.gov/materials/uranium-recovery/license-apps/reno-creek.html>. Additionally, a copy of the Draft SEIS will be available at the following public libraries: Campbell County Library, 2101 S 4–J Rd., Gillette, WY 82718; Campbell County Library, Wright Branch, 105 Wright Blvd., Wright, WY 82732.

The Draft SEIS was prepared in response to an application submitted by AUC by letter dated October 3, 2012. The applicant proposes the construction, operation, aquifer restoration, and decommissioning of an ISR facility.

The Draft SEIS was prepared by the NRC and its contractor, Southwest Research Institute. The NRC has prepared this Draft SEIS in compliance with NEPA and the NRC’s regulations for implementing NEPA (10 CFR part 51).

The proposed Reno Creek ISR Project will be located in Campbell County between the communities of Wright, Edgerton and Gillette and would encompass approximately 2,451 hectares (6,057 acres).

The Draft SEIS is being issued as part of the NRC’s process to decide whether to issue a license to AUC pursuant to 10 CFR part 40. In the Draft SEIS, the NRC staff has assessed the potential environmental impacts from the construction, operation, aquifer restoration, and decommissioning of the proposed Reno Creek ISR Project. The NRC staff assessed the impacts of the proposed action and an alternative on land use; historical and cultural resources; visual and scenic resources; climatology, meteorology and air quality; geology, minerals and soils; water resources; ecological resources; socioeconomics; environmental justice;

noise; traffic and transportation; public and occupational health and safety; and waste management. Additionally, the Draft SEIS analyzes and compares the benefits and costs of the proposed action.

The NRC staff evaluated site-specific data and information on the Reno Creek ISR Project to determine if AUC’s proposed activities and the site characteristics were consistent with those evaluated in the GEIS. NRC then determined which relevant sections of, and impact conclusions in, the GEIS could be incorporated by reference. The NRC staff also determined if additional data or analysis was needed to assess the potential environmental impacts for a specific environmental resource area. The NRC documented its assessments and conclusions in the Draft SEIS.

In addition to the action proposed by AUC, the NRC staff addressed the no-action alternative. The no-action alternative serves as a baseline for comparing the potential environmental impacts of the proposed action.

After weighing the impacts of the proposed action and comparing the alternative, the NRC staff, in accordance with 10 CFR 51.71(f), sets forth its preliminary recommendation regarding the proposed action. Unless safety issues mandate otherwise, the NRC staff preliminarily recommends that the proposed action be approved (*i.e.*, the NRC should issue a source material license for the proposed Reno Creek ISR Project).

The Draft SEIS is being issued for public comment. The public comment period on the Draft SEIS begins with publication of this notice and continues until August 22, 2016. Written comments should be submitted as described in the **ADDRESSES** section of this document. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

Dated at Rockville, Maryland, this 29th day of June, 2016.

For the U.S. Nuclear Regulatory Commission.

**Craig G. Erlanger,**

*Director, Division of Fuel Cycle Safety, Safeguards, and Environmental Review, Office of Nuclear Material Safety and Safeguards.*
