Burden Hours: 2,000.

Needs and Uses: This request is for extension of a currently approved information collection.

The Magnuson-Stevens Act (16 U.S.C. 1801) provides that the Secretary of Commerce is responsible for the conservation and management of marine fisheries resources in Exclusive Economic Zone (3–200 miles) of the United States (U.S.). NOAA Fisheries, West Coast Region—Northwest manages the Pacific Coast Groundfish Fishery in the Exclusive Economic Zone (EEZ) off Washington, Oregon, and California under the Pacific Coast Groundfish Fishery Management Plan. The regulations implementing the Pacific Groundfish Fishery require that those vessels participating in the limited entry fishery to be registered to a valid limited entry permit. Participation in the fishery and access to a limited entry permit has been restricted to control the overall harvest capacity. The regulations implementing the limited entry program are found at 50 CFR part 660, subpart G.

NOAA Fisheries seeks comment on the extension of permit information collections required for: (1) Renewal and transfer of Pacific Coast Groundfish limited entry permits; (2) implementation of certain provisions of the sablefish permit stacking program as provided for at 50 CFR 660.231 and 660.25; and (3) issuing and fulfilling the terms and conditions of certain exempted fishing permits (EFPs).

Also, NOAA Fisheries requires an information collection to implement certain aspects of the sablefish permit stacking program which prevents excessive fleet consolidation. As part of the annual renewal process, NOAA Fisheries requires a corporation or partnership that owns or holds (as vessel owner) a sablefish endorsed permit to provide a complete ownership interest form listing all individuals with ownership interest in the entity. Similarly, any sablefish endorsed permit transfer involving registration of a business entity requires an ownership interest form if either the permit owner or vessel owner is a corporation or partnership. This information is used to determine if individuals own or hold sablefish permits in excess of the limit of 3 permits. Also, for transfer requests made during the sablefish primary season (April 1st through October 31st),

the permit owner is required to report the remaining tier pounds not yet harvested on the sablefish endorsed permit at the time of transfer.

Applicants for an exempted fishing permit (EFP) must submit written information that allows NOAA Fisheries and the Pacific Fishery Management Council to evaluate the proposed exempted fishing project activities and weigh the benefits and costs of the proposed activities. The Council makes a recommendation on each EFP application and for successful applicants, NOAA Fisheries issues the EFPs which contains terms and conditions for the project including various reporting requirements. The information included in an application is specified at 50 CFR 600.745(b)(2) and the Council Operating Procedure #19. Permit holders are required to file preseason harvest plans, interim and/or final summary reports on the results of the project and in some cases individual vessels and other permit holders are required to provide data reports (logbooks and/or catch reports). The results of EFPs are commonly used to explore ways to reduce effort on depressed stocks, encourage innovation and efficiency in the fishery, provide access to constrained stocks which directly measuring the bycatch associated with such strategies and evaluate/revise current and proposed management measures.

Affected Public: Business or other for-profit organizations, individuals or households, not-for-profit institutions; state, local or tribal government.

Frequency: Annually, semi-annually, monthly and on occasion.

Respondent's Obligation: Required to obtain or retain benefits.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *OIRA_Submission@omb.eop.gov* or fax to (202) 395–5806.

Dated: July 5, 2016.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[Docket No. 160606490–6490–01]

Privacy Act of 1974; System of Records

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of a New Privacy Act System of Records: COMMERCE/NOAA–21, Financial Systems Division.

SUMMARY: This notice announces the Department of Commerce's (Department's) proposal for a new system of records under the Privacy Act. The National Oceanic and Atmospheric Administration's (NOAA's) National Marine Fisheries Service (NMFS) is creating a new system of records for the Financial Services Division's financial assistance programs. Information will be collected from individuals and businesses under the authority of title XI of the Merchant Marine Act of 1936, as amended and codified, and the Magnuson-Stevens Fishery Conservation and Management Act, as amended. This new record system is necessary to determine whether applicants for program financing, Fishermen's Contingency claims, or participants in Capital Construction Fund accounts or Fishery Capacity Reduction programs are eligible and are creditworthy.

DATES: To be considered, written comments must be submitted on or before August 8, 2016. Unless comments are received, the new system of records will become effective as proposed on August 17, 2016. If comments are received, the Department will publish a subsequent notice in the **Federal Register** within 10 days after the comment period closes, stating that the current system of records will remain in effect until publication of a final action in the **Federal Register**.

ADDRESSES: Comments may be mailed to: Paul Marx, Chief, Financial Services Division, National Marine Fisheries Service, 1315 East West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Paul Marx, Chief, Financial Services Division, National Marine Fisheries Service, 1315 East West Highway, Silver Spring, MD 20910.

SUPPLEMENTARY INFORMATION: NMFS will use the information contained in this system of records to determine whether applicants for the Fisheries Financing Program (FFP) are both

eligible and creditworthy; whether applicants for fishing gear reimbursements under the Fishermen's Contingency Fund (FCF) are eligible and present valid claims; whether participants under the Capital Construction Fund (CCF) are eligible to participate; and whether participants in Fisheries Capacity Reduction programs (Buyback) are providing correct information. The information collected is essential for financial assistance and program eligibility determinations. It is comparable to what is usually required by commercial lending institutions when making lending decisions, or insurance institutions when adjusting claims. Applicants with a history of credit problems (including delinquent Federal debt), litigation or bankruptcy, lack of capital, etc., may be unable to meet the FFP's stringent credit standards and may be denied financing. Applicants for CCF accounts with an ineligible vessel or an ineligible project may be unable to meet the CCF program requirements. Claimants with insufficient or incorrect documentation may be ineligible to receive reimbursements for fishing gear lost on the Outer Continental Shelf. Participants in the Capacity Reduction programs who fail to remit fees or fail to remit them timely may face penalties and late charges.

The information collection is requested from individuals and businesses under the authority of title XI of the Merchant Marine Act of 1936, as amended and codified, and the Magnuson-Stevens Fishery Conservation and Management Act, as amended. The information collection includes collecting each applicant's Tax Identification Number (TIN), either an Employer Identification Number (EIN) or Social Security Number (SSN). Collection of a TIN is required under 31 U.S.C. 7701. The primary purpose for requesting the TIN is to correctly identify the applicant for background and credit investigations and program eligibility, and may be used to report or collect any delinquent amounts arising out of an applicant's relationship with the Government.
