Recommenders will no longer be asked to complete a recommendation form, but to write a reference letter that comments on the research skills and the abilities of the applicant. A general eligibility checklist (NIH 2674–20) was added at the start of the application to reduce the likelihood of ineligible individuals working through the application only to learn of their disqualification after submitting the application. Redundant questions or statements were eliminated. OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 33,242.
