DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Availability of Non Exclusive License: Hosting and Maintaining the Buy Quiet Web Tool and the Database of Noise Levels for Machinery and Power Tools

AGENCY: National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: Pursuant to 29 U.S.C. 671, notice is given that the National Institute for Occupational Safety and Health (NIOSH) is soliciting proposals for entities and organizations to host and maintain the Buy Quiet Web Tool and the Database of Noise Levels for Machinery and Power Tools through a non-exclusive license. This web tool and database are intended to provide guidance regarding the Buy Quiet program and provide information on how to adopt a Buy Quiet program as well as provide information about machinery and equipment noise levels. It is the goal of these online resources to inform at-risk individuals and their organizations about occupational noise exposures and practical ways to reduce noise-induced hearing loss. NIOSH will grant a non-exclusive license for the maintenance and hosting of the web tools. The preferred qualifications of the grantee organization are detailed in the **SUPPLEMENTARY INFORMATION** section below.

DATES: Representatives of eligible organizations should submit

expressions of interest no later than August 25, 2016.

ADDRESSES: Expressions of interest may be directed electronically to Bryan Beamer at zmy4@cdc.gov or mailed to National Institute for Occupational Safety and Health, Division of Applied Research and Technology, 1090 Tusculum Avenue, MS C-27, Cincinnati, OH 45226. Attention: Bryan Beamer.

FOR FURTHER INFORMATION CONTACT: Questions may be directed to Bryan Beamer, National Institute for Occupational Safety and Health, Division of Applied Research and Technology, 1090 Tusculum Ave., MS C-27, Cincinnati, OH 45226. Email: zmy4@cdc.gov.

SUPPLEMENTARY INFORMATION: NIOSH has developed the Buy Quiet Web Tool and the Database of Noise Levels for Machinery and Power Tools with the goal of reducing noise-induced hearing loss among the nation's workers by providing information and tools to facilitate, document, and track the progress of Buy Quiet programs. NIOSH is looking for one organization to host and maintain either one or both of the Buy Quiet Web Tool and the interactive Database of Noise Levels for Machinery and Power Tools. The grantee organization would ideally possess the following qualifications:

- Ability to promote the web tools with national reach;
- access to subject matter experts in information technologies related to Web-based database development and maintenance;
- access to subject matter experts in occupational noise mitigation;
- access to appropriate information technology hardware and software;
- ability to solicit, accept, vet and maintain noise level data from manufacturers for the Database of Noise Levels for Machinery and Power Tools;
- ability to solicit and maintain Buy Quiet program data for a variety of companies; and
- ability to host and maintain the web tools for a minimum period of 3 years from the date the tools are made available to the general public.

Furthermore, the organization is to make these tools available to the general public within 12 months of signing the license agreement.

Links to the NIOSH Buy Quiet Web site and the current NIOSH Power Tools Database can be found here:

- <http://www.cdc.gov/niosh/topics/buyquiet/default.html>—Buy Quiet Web site
- <http://wwwn.cdc.gov/niosh-sound-vibration/>—NIOSH Power Tools Database

Information Needed: Expressions of interest should outline the organization's ability to meet the preferred qualifications mentioned above and be no more than four pages in length.

Dated: July 5, 2016.

Frank Hearl,

Chief of Staff, National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Written comments and/or suggestions regarding the items contained in this notice

should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Zika Virus Persistence in Body Fluids of Patients with Zika Virus Infection in Puerto Rico (ZIPER Study)—New—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Zika virus (ZIKV) is a mosquito-borne flavivirus that has recently emerged in the Americas. Previously, outbreaks had occurred in Asia and islands in the South Pacific. In addition to mosquito-to-human transmission, ZIKV infections have been documented through sexual transmission, blood transfusion, laboratory exposure, intrauterine transmission resulting in congenital infection, and intrapartum transmission from a viremic mother to her newborn. Along with serum, ZIKV RNA has been detected in semen, urine, breast milk, and amniotic fluid. ZIKV IgM antibodies are generally first detectable at 4 to 8 days after onset of illness and likely persist for weeks to months; however, the duration of persistence of anti-ZIKV IgM antibodies is unknown as well as the timing from infection to the development of IgG antibodies. The prevalence of ZIKV RNA in various body fluids among patients with acute ZIKV infection and the length of time that ZIKV RNA might persist in these body fluids is not well understood, nor the frequency with which it is infectious. Characterizing these parameters has implications both for diagnosis of ZIKV infection using specimens other than blood than may be more convenient to collect, as well as for potential human-to-human transmission.

The Zika PERsistence (ZIPER) study will help inform the presence and duration of ZIKV shedding in several body fluids among RT-PCR-positive ZIKV cases from Puerto Rico. It will also provide information regarding the duration of detection of anti-ZIKV IgM antibodies and the time for development of IgG antibodies among the same population. In addition, this protocol will determine the prevalence of anti-ZIKV IgM and IgG, and virus shedding in body fluids among household contacts of ZIKV cases.

We propose to investigate the persistence (shedding) of ZIKV in different body fluids and its relation to
