

at <https://access.trade.gov>, and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be found at <http://enforcement.trade.gov/frn/>. The signed Preliminary Decision Memorandum and the electronic version of the Preliminary Decision Memorandum are identical in content. A list of the topics discussed in the Preliminary Decision Memorandum is attached as the Appendix to this notice.

**Preliminary Results of Review**

The Department preliminarily determines that the following weighted-average dumping margin exists for the period June 1, 2014, through May 31, 2015:

Manufacturer/exporter	Weighted-average dumping margin (percent)
Shanghai General Bearing Co., Ltd .....	9.81

**Disclosure and Public Comment**

The Department will disclose calculations performed for these preliminary results to the parties within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). Interested parties may submit case briefs no later than 30 days after the date of publication of these preliminary results of review or, if the Department conducts verification of SGBC/SKF's data, seven days after the issuance of the final verification report, whichever date is later.<sup>6</sup> Rebuttals to case briefs may be filed no later than five days after case briefs are filed and all rebuttal briefs must be limited to comments raised in the case briefs.<sup>7</sup> Parties who submit comments are requested to submit with the argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.<sup>8</sup>

Any interested party may request a hearing within 30 days of publication of this notice.<sup>9</sup> Hearing requests should contain the following information: (1) The party's name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. Oral presentations will be limited to issues raised in the briefs.<sup>10</sup> If a request for a hearing is

made, parties will be notified of the time and date for the hearing to be held at the U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.<sup>11</sup>

All submissions, with limited exceptions, must be filed electronically using ACCESS. An electronically filed document must be received successfully in its entirety by 5 p.m. Eastern Time (ET) on the due date. Documents excepted from the electronic submission requirements must be filed manually (*i.e.*, in paper form) with the APO/Dockets Unit in Room 18022 and stamped with the date and time of receipt by 5 p.m. ET on the due date.

Unless otherwise extended, the Department intends to issue the final results of this changed circumstances review, which will include the results of its analysis of all issues raised in the case briefs, within 120 days of publication of these preliminary results.

**Reinstatement and Suspension of Liquidation**

Because we have preliminarily established that TRBs from the PRC manufactured and exported by SGBC/SKF is being sold at less than NV, SGBC/SKF is hereby preliminarily reinstated in the antidumping duty order. We will instruct CBP to suspend liquidation of all entries of subject merchandise manufactured and exported by SGBC/SKF, entered or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. Furthermore, a cash deposit requirement of 9.81 percent will be in effect for all shipments of the subject merchandise manufactured and exported by SGBC/SKF entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice. This requirement shall remain in effect until further notice.

**Notification to Importers**

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing these preliminary results of review in

accordance with sections 751(b)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b) of the Department's regulations.

Dated: July 5, 2016.

**Ronald K. Lorentzen,**

*Acting Assistant Secretary for Enforcement and Compliance.*

**Appendix—List of Topics Discussed in the Preliminary Decision Memorandum**

1. Summary
2. Background
3. Scope of the Order
4. Discussion of the Methodology
  - a. Non-Market Economy Country Status
  - b. Separate Rates
  - c. Collapsing of SGBC/SKF With Another Producer of TRBs
  - d. Surrogate Country
  - e. Date of Sale
  - f. Comparisons to Normal Value
  - g. Constructed Export Price
  - h. Value-Added Tax (VAT)
  - i. Normal Value
  - j. Currency Conversion
5. Conclusion

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**RIN 0648-XE715**

**Atlantic Coastal Fisheries Cooperative Management Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; request for comments.

**SUMMARY:** The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application from the Massachusetts Division of Marine Fisheries contains all of the required information and warrants further consideration. This Exempted Fishing Permit would allow a commercial fishing vessel to retain approximately 600 sublegal-sized male, and egg-bearing, v-notched, and sublegal-sized female lobsters during normal fishing operations in Lobster Management Area 2 for use in reproductive laboratory research being conducted by Massachusetts Division of Marine Fisheries.

Regulations under the Magnuson-Stevens Fishery Conservation and

<sup>6</sup> See 19 CFR 351.309(c)(1)(ii).

<sup>7</sup> See 19 CFR 351.309(d).

<sup>8</sup> See 19 CFR 351.309(c)(2).

<sup>9</sup> See 19 CFR 351.310(c).

<sup>10</sup> *Id.*

<sup>11</sup> See 19 CFR 351.310(d).

Management Act and the Atlantic Coastal Fisheries Cooperative Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed Exempted Fishing Permits.

**DATES:** Comments must be received on or before July 28, 2016.

**ADDRESSES:** You may submit written comments by any of the following methods:

- *Email to:* [nmfs.gar.efp@noaa.gov](mailto:nmfs.gar.efp@noaa.gov). Include in the subject line "MA DMF Climate Change Lobster EFP."

- *Mail to:* John K. Bullard, Regional Administrator, NMFS, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on MA DMF Climate Change Lobster EFP."

**FOR FURTHER INFORMATION CONTACT:** Cynthia Hanson, NOAA Affiliate, 978-281-9180.

**SUPPLEMENTARY INFORMATION:**

Massachusetts Division of Marine Fisheries (MA DMF) submitted a complete application for an Exempted Fishing Permit (EFP) on June 27, 2016, to conduct commercial fishing activities that the regulations would otherwise restrict. The EFP would authorize one vessel to possess and transport approximately 600 sublegal-sized male, and egg-bearing, v-notched, and sublegal-sized female lobsters during normal fishing operations in Lobster Management Area (LMA) 2. These lobsters will be delivered to MA DMF staff for use in laboratory research. The research will study the effects of climate change and thermal stress on reproduction in lobsters and requires reproductively capable lobsters to examine/observe mating success, fecundity, egg quality, and overall reproductive capacity.

Funding for this study has been awarded under the Saltonstall-Kennedy Research Program (Grant #NA16NMF4270242). This study is designed to investigate the decline and recruitment failure of the Southern New England lobster stock. MA DMF is requesting specific exemptions from Federal lobster regulations on:

1. Minimum legal size harvest and possession requirements specified at 50 CFR 697.20(a)(4);
2. Restrictions on the harvest, possession, and transport of egg-bearing females at § 697.20(d)(1) through (3); and
3. Restrictions on the harvest and possession of standard v-notch females detailed at § 697.20(g)(3) through (4).

If the EFP is approved, all exempted collections would take place on designated collection days during the normal commercial fishing activity of the participating vessel. No additional and/or modified gear or effort would be used, so no additional impacts to bycatch, marine mammals, or endangered species are anticipated beyond the risks associated with normal fishing operations. This project will collect approximately 400 egg-bearing females and 200 otherwise restricted lobsters for scientific study. All lobsters caught under the EFP for research purposes would be banded with a different color to distinguish them from the legally harvestable commercial catch, and any egg-bearing females would be held separately from the remainder of the catch. A MA DMF staff member would meet the vessel at the dock after each collection trip to take possession of the EFP-authorized lobsters and bring them to the MA DMF facility for processing and experimental study. No more than a total of four collection days/trips of typical commercial fishing activity are anticipated under this EFP.

If approved, MA DMF may request minor modifications and extensions to the EFP throughout the study period. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: July 8, 2016.

**Emily H. Menashes,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

**BILLING CODE 3510-22-P**

## ENVIRONMENTAL PROTECTION AGENCY

[FRL 9949-01-ORD]

### Office of Research and Development; Ambient Air Monitoring Reference and Equivalent Methods: Designation of One New Reference Method and Four New Equivalent Methods

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of the designation of a new reference method and four new

equivalent methods for monitoring ambient air quality.

**SUMMARY:** Notice is hereby given that the Environmental Protection Agency (EPA) has designated, in accordance with 40 CFR part 53, one new reference method for measuring concentrations of sulfur dioxide (SO<sub>2</sub>), four new equivalent methods for measuring concentrations of PM<sub>2.5</sub>, PM<sub>10</sub> and PM<sub>10-2.5</sub> in ambient air.

**FOR FURTHER INFORMATION CONTACT:** Robert Vanderpool, Exposure Methods and Measurement Division (MD-D205-03), National Exposure Research Laboratory, U.S. EPA, Research Triangle Park, North Carolina 27711. Email: [Vanderpool.Robert@epa.gov](mailto:Vanderpool.Robert@epa.gov).

**SUPPLEMENTARY INFORMATION:** In accordance with regulations at 40 CFR part 53, the EPA evaluates various methods for monitoring the concentrations of those ambient air pollutants for which EPA has established National Ambient Air Quality Standards (NAAQSs) as set forth in 40 CFR part 50. Monitoring methods that are determined to meet specific requirements for adequacy are designated by the EPA as either reference or equivalent methods (as applicable), thereby permitting their use under 40 CFR part 58 by States and other agencies for determining compliance with the NAAQSs. A list of all reference or equivalent methods that have been previously designated by EPA may be found at <http://www.epa.gov/ttn/amt/criteria.html>.

The EPA hereby announces the designation of one new reference method for measuring concentrations of SO<sub>2</sub> in ambient air and two new equivalent methods for measuring pollutant concentrations of PM<sub>2.5</sub>, one new equivalent method for measuring pollutant concentrations of PM<sub>10</sub>, and one for measuring pollutant concentrations of PM<sub>10-2.5</sub>. These designations are made under the provisions of 40 CFR part 53, as amended on October 26, 2015 (80 FR 65291).

The new reference method for SO<sub>2</sub> is an automated method (analyzer) utilizing a measurement principle based on ultraviolet fluorescence and is identified as follows:

RFSA-0616-237, "Sutron Model 6020 Sulfur Dioxide Fluorescent Analyzer", operated at any of the following measurement ranges: 0-0.5 ppm, at any ambient temperature in the range of 5-40 °C, at any line voltage in the range of 90-260 VAC, at any sample flow rate in the range of 0.4-0.8 L/min, and in accordance with the Model 6020 SO<sub>2</sub> Analyzer Operation Manual, with or
