Item I—Small Business Subcontracting Improvements (FAR Case 2014–003)

This final rule amends the FAR to implement SBA’s final rule published at 78 FR 42391 on July 16, 2013. The rule will implement the statutory requirements set forth in section 1321 and 1322 of the Small Business Jobs Act of 2010, (Pub. L. 111–240), as well as other requirements aimed at improving subcontracting regulations to increase small business opportunities. This rule accomplishes the following:

(1) Requires prime contractors to make good faith efforts to utilize their proposed small business subcontractors during performance of a contract to the same degree the prime contractor relied on the small business in preparing and submitting its bid or proposal. To the extent a prime contractor is unable to make a good faith effort to utilize its small business subcontractors as

described above, the prime contractor is required to explain, in writing, within 30 days of contract completion, to the contracting officer the reasons why it was unable to do so.

(2) Authorizes contracting officers to calculate subcontracting goals in terms of total contract dollars in addition to the required goals in terms of total subcontracted dollars.

(3) Provides contracting officers with the discretion to require a subcontracting plan in instances where a small business rerepresents its size as an other than small business.

(4) Requires subcontracting plans even for modifications under the subcontracting plan threshold if said modifications would cause the contract to exceed the plan threshold.

(5) Requires prime contractors to assign North American Industry Classification System (NAICS) codes to subcontracts.

(6) Restricts prime contractors from prohibiting a subcontractor from discussing payment or utilization matters with the contracting officer.

(7) Requires prime contractors to resubmit a corrected subcontracting report within 30 days of receiving the

contracting officer’s notice of report rejection.

(8) Requires prime contractors to provide the socioeconomic status of the subcontractor in the notification to unsuccessful offerors for subcontracts.

(9) Requires prime contracts with subcontracting plans on task and delivery order contracts to report order level subcontracting information after November 2017.

(10) Facilitates funding agencies receiving small business subcontracting credit.

(11) On indefinite-delivery, indefinite-quantity contracts, allows the contracting officer to establish subcontracting goals at the order level (but not a new subcontracting plan).

This rule may have a positive economic impact on any small business entity that wishes to participate in the Federal procurement arena as a subcontractor.

Item II—OMB Circular Citation Update (FAR Case 2014–023)

This final rule amends the FAR to update outdated OMB Circular citation references. On December 26, 2013, the Office of Management and Budget (OMB) published new guidance at 2
