

# Rules and Regulations

Federal Register

Vol. 81, No. 135

Thursday, July 14, 2016

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

### Animal and Plant Health Inspection Service

#### 7 CFR Part 319

[Docket No. APHIS–2006–0121]

RIN 0579–AC19

#### Importation of Mangoes From India; Technical Amendment

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Final rule; technical amendment.

**SUMMARY:** We are amending the regulations regarding the importation of mangoes from India to further clarify our requirements regarding inspection of the mangoes. A previous technical amendment amended the regulations to allow mangoes treated with irradiation in the United States to be inspected by the national plant protection organization (NPPO) of India in India, and subsequently by the Animal and Plant Health Inspection Service (APHIS) at the port of entry within the United States, rather than being jointly inspected by APHIS and the NPPO in India in all cases. However, in that technical amendment, we neglected to also remove two references to preclearance inspections within India. This document corrects that error.

**DATES:** Effective July 14, 2016.

**FOR FURTHER INFORMATION CONTACT:** Dr. Nicole Russo, Director, Imports, Regulations, and Manuals, APHIS–PPQ Unit 133, Riverdale, MD 20737–1236; (301) 851–2159.

**SUPPLEMENTARY INFORMATION:** In a final rule<sup>1</sup> published in the *Federal Register* on July 20, 2012 (77 FR 42621–42625,

Docket No. APHIS–2009–0100), and effective on August 20, 2012, we amended the regulations in 7 CFR 319.56–46 to allow for irradiation treatment of mangoes from India upon arrival in the mainland United States rather than just at the point of origin.

In a technical amendment<sup>2</sup> published in the *Federal Register* on September 21, 2012 (77 FR 58470–58471, Docket No. APHIS–2009–0100), we amended paragraph (c) of § 319.56–46, which contains inspection requirements for mangoes from India, to allow mangoes intended for irradiation treatment within the United States to be inspected by the national plant protection organization (NPPO) of India prior to shipment to the United States, and subsequently to be inspected by an inspector upon arrival at the port of entry in the United States. Prior to that technical amendment, paragraph (c) had required a joint preclearance inspection in India for all mangoes intended for export to the United States.

In that technical amendment, however, we neglected to also amend paragraphs (d) and (e)(2) of § 319.56–46, which together required consignments of mangoes to be inspected during preclearance activities and accompanied by a phytosanitary certificate with an additional declaration that the mangoes were inspected during preclearance activities and found free of *Cytosphaera mangiferae*, *Macrophoma mangiferae*, and *Xanthomonas campestris* pv. *mangiferaeindicae*.

Because we did not amend these requirements to remove references to preclearance activities, there has continued to be confusion among stakeholders regarding whether preclearance inspections are required for mangoes from India intended for irradiation in the United States. As noted in the previous technical amendment, however, we consider preclearance inspections, which are jointly conducted by the Animal and Plant Health Inspection Service and the NPPO of India, to be necessary only when irradiation will take place in India. If the mangoes will be irradiated in the United States, we require the mangoes to be inspected in the United States prior to this treatment. Accordingly, it is more useful and cost

effective for the NPPO to initially inspect the mangoes in India, and for us to subsequently inspect the mangoes at the port of entry into the United States. As a result, we are amending paragraphs (d) and (e)(2) of § 319.56–46 to remove their references to preclearance activities.

#### List of Subjects in 7 CFR Part 319

Coffee, Cotton, Fruits, Imports, Logs, Nursery stock, Plant diseases and pests, Quarantine, Reporting and recordkeeping requirements, Rice, Vegetables.

Accordingly, we are amending 7 CFR part 319 as follows:

#### PART 319—FOREIGN QUARANTINE NOTICES

■ 1. The authority citation for part 319 continues to read as follows:

**Authority:** 7 U.S.C. 450, 7701–7772, and 7781–7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

#### § 319.56–46 [Amended]

■ 2. In § 319.56–46, paragraphs (d) and (e)(2) are amended by removing the words “during preclearance activities”.

Done in Washington, DC, this 8th day of July 2016.

**Kevin Shea,**

*Administrator, Animal and Plant Health Inspection Service.*

## DEPARTMENT OF ENERGY

### 10 CFR Parts 429 and 430

[Docket No. EERE–2011–BT–CE–0077]

RIN 1904–AC68

#### Energy Conservation Program: Enforcement of Regional Standards for Central Air Conditioners

**AGENCY:** Office of Energy Efficiency and Renewable Energy, Department of Energy.

**ACTION:** Final rule.

**SUMMARY:** In this final rule, DOE is adopting provisions pertaining to the enforcement of regional standards for central air conditioners, which were largely based on recommendations from a negotiated rulemaking term sheet. On November 19, 2015, the U.S.
