

The property is a 12 foot wide portion of airport property and has long been used for road frontage and not needed for aeronautical purpose. It cannot be used for airport access given its close proximity to the intersection of Layton and Howell avenues. The land was acquired as airport property from a private party in 1941. The airport plans to dispose of the property upon release.

The disposition of proceeds from the sale of the airport property will be in accordance with FAA's Policy and Procedures Concerning the Use of Airport Revenue, published in the **Federal Register** on February 16, 1999 (64 FR 7696).

This notice announces that the FAA is considering the release of the subject airport property at the General Mitchell International Airport, Milwaukee, Wisconsin, from federal land covenants, subject to a reservation for continuing right of flight as well as restrictions on the released property as required in FAA Order 5190.6B section 22.16. Approval does not constitute a commitment by the FAA to financially assist in the disposal of the subject airport property nor a determination of eligibility for grant-in-aid funding from the FAA.

Legal Description
