

Included products are those in which: (1) Iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements below exceeds the quantity, by weight, respectively indicated:

- 2.50 percent of manganese, or
- 3.30 percent of silicon, or
- 1.50 percent of copper, or
- 1.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 2.0 percent of nickel, or
- 0.30 percent of tungsten, or
- 0.80 percent of molybdenum, or
- 0.10 percent of niobium (also called columbium), or
- 0.30 percent of vanadium, or
- 0.30 percent of zirconium.

The subject merchandise is currently provided for in item 7306.61.1000 of the Harmonized Tariff Schedule of the United States (HTSUS). Subject merchandise may also enter under HTSUS 7306.61.3000. While the HTSUS subheadings and ASTM specification are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Appendix II

List of Topics Discussed in the Issues and Decision Memorandum

- I. Summary
- II. Background
- III. Scope of the Investigation
- IV. Margin Calculations
- V. Application of Facts Available and Use of Adverse Inference
- VI. Discussion of the Issues
 1. Assignment of Margin Based on AFA to MMZ
 2. Weight Basis for Comparison Methodology
 3. Calculation of Duty Drawback Adjustment
 4. Which DIIBs to Include in Calculating the Duty Drawback Adjustment
 5. Offset of Duty Drawback Adjustment for Related Expenses
 6. Application of the Duty Drawback Adjustment in the Margin Program
 7. U.S. Date of Sale
 8. Short-Term Interest Rate in the Home Market
 9. Returns
 10. Adjustments to Ozdemir's Cost of Manufacturing
 11. Reallocation of Costs for Non-Prime Merchandise
- VII. Recommendation

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Evaluation of State Coastal Management Programs

AGENCY: Office for Coastal Management (OCM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA), Office for Coastal Management will hold a second public meeting to solicit comments on the performance evaluation of the Oregon Coastal Management Program.

DATES: *Oregon Coastal Management Program Evaluation:* The public meeting will be held on September 7, 2016, and written comments must be received on or before September 9, 2016.

For specific dates, times, and locations of the public meetings, see **SUPPLEMENTARY INFORMATION.**

ADDRESSES: You may submit comments on the program or reserve NOAA intends to evaluate by any of the following methods:

Public Meeting and Oral Comments: A public meeting will be held in Portland, Oregon. For the specific location, see **SUPPLEMENTARY INFORMATION.**

Written Comments: Please direct written comments to Carrie Hall, Evaluator, Planning and Performance Measurement Program, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or email comments *Carrie.Hall@noaa.gov*.

FOR FURTHER INFORMATION CONTACT: Carrie Hall, Evaluator, Planning and Performance Measurement Program, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or *Carrie.Hall@noaa.gov*. Copies of the previous evaluation findings and related material (including past performance reports and notices prepared by NOAA's Office for Coastal Management) may be obtained upon written request by contacting the person identified under **FOR FURTHER INFORMATION CONTACT.** Copies of the most recent evaluation findings and most recent progress report may also be downloaded or viewed on the Internet at <http://coast.noaa.gov/czm/evaluations>.

SUPPLEMENTARY INFORMATION: Section 312 of the Coastal Zone Management Act (CZMA) requires NOAA to conduct periodic evaluations of federally approved state and territorial coastal programs. The process includes one or more public meetings, consideration of written public comments and consultations with interested Federal, state, and local agencies and members of the public. During the evaluation, NOAA will consider the extent to which the state has met the national objectives, adhered to the management program approved by the Secretary of Commerce, and adhered to the terms of financial assistance under the CZMA. When the evaluation is completed, NOAA's Office for Coastal Management will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings.

Specific information on the periodic evaluation of the state and territorial coastal program that is the subject of this notice is detailed below as follows:

Oregon Coastal Management Program Evaluation

You may participate or submit oral comments at the public meeting scheduled as follows:

Date: September 7, 2016.

Time: 5:00 p.m., local time.

Location: 1201 NE Lloyd Blvd. 1st Floor Conference Room (Room #140), Portland, Oregon 97232.

Written public comments must be received on or before September 9, 2016.

(Federal Domestic Assistance Catalog 11.419 Coastal Zone Management Program Administration)

Dated: July 14, 2016.

John King,

Deputy Director, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration.

National Oceanic and Atmospheric Administration

RIN 0648-XE692

Determination of Overfishing or an Overfished Condition

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: This action serves as a notice that NMFS, on behalf of the Secretary of Commerce (Secretary), has found that the Atlantic bigeye tuna stock is subject to overfishing. In addition, Gulf of Mexico gray triggerfish and Gulf of Mexico red snapper continue to be overfished. NMFS, on behalf of the Secretary, notifies the appropriate fishery management council (Council) whenever it determines that overfishing is occurring, a stock is in an overfished condition, a stock is approaching an overfished condition, or when a rebuilding plan has not resulted in adequate progress toward ending overfishing and rebuilding affected fish stocks.

FOR FURTHER INFORMATION CONTACT: Regina Spallone, (301) 427-8568.

SUPPLEMENTARY INFORMATION: Pursuant to sections 304(e)(2) and (e)(7) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1854(e)(2) and (e)(7), and implementing regulations at 50 CFR 600.310(e)(2), NMFS, on behalf of the Secretary, must notify Councils whenever it determines that a stock or stock complex is overfished or approaching an overfished condition; or if an existing rebuilding plan has not ended overfishing or resulted in adequate rebuilding progress. NMFS also notifies Councils when it determines a stock or stock complex is subject to overfishing. Section 304(e)(2) further requires NMFS to publish these notices in the **Federal Register**.

NMFS has determined that the Atlantic bigeye tuna stock is subject to overfishing, based on a 2015 stock assessment conducted by the Standing Committee on Research and Statistics (SCRS), which is the scientific body of the International Commission for the Conservation of Atlantic Tunas (ICCAT). The 2015 assessment also resulted in a determination of “not overfished—rebuilding” under the applicable domestic status determination criteria. NMFS manages Atlantic bigeye tuna under its 2006 Consolidated Atlantic Highly Migratory Species (HMS) Fishery Management Plan and amendments, consistent with the Magnuson-Stevens Act and the Atlantic Tunas Convention Act (ATCA), 16 U.S.C. 971 *et seq.*, and ICCAT’s “Multi-Annual Conservation and Management Program,” adopted in 2010.

NMFS has also determined that Gulf of Mexico gray triggerfish and Gulf of Mexico red snapper continue to be overfished. The Gulf of Mexico Fishery Management Council has been informed that they must rebuild these stocks.

Dated: July 14, 2016.

Emily H. Menashes,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

National Estuarine Research Reserve System

AGENCY: Stewardship Division, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of Approval for the Padilla Bay, Washington National Estuarine Research Reserve Management Plan revision.

SUMMARY: Under 15 CFR 921.33(d), notice is hereby given that the Stewardship Division, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce approves the revised Management Plan for Padilla Bay, Washington National Estuarine Research Reserve Management Plan. In accordance with 15 CFR 921.33(c), the Padilla Bay Reserve revised its Management Plan, which will replace the plan previously approved in 2008.

The revised Management Plan outlines the administrative structure; the research/monitoring, stewardship, education, and training programs of the Reserve; and the plans for future land acquisition and facility development to support Reserve operations.

The Padilla Bay Reserve takes an integrated approach to management, linking research, education, coastal training, and stewardship functions. The Reserve has outlined how it will manage administration and its core program providing detailed actions that will enable it to accomplish specific goals and objectives. Since the last Management Plan, the Reserve has built out its core programs and monitoring infrastructure; conducted an educational market analysis and needs assessment to better meet teacher needs and underserved audiences; developed a Reserve Disaster Response Plan; and improved public access to the Reserve through construction of a new boat launch ramp and enhanced trails.

On March 10, 2016, NOAA issued a notice of a thirty day public comment period for the Padilla Bay Reserve revised plan (81 FR 12716). Responses

to the written and oral comments received, and an explanation of how comments were incorporated into the final revised plan, are available in Appendix G of the revised plan.

Since the last management plan was approved in 2008, the Padilla Bay Reserve has acquired an additional 110 acres of tidelands inside the Reserve boundary. With the approval of this management plan, the Padilla Bay Reserve will increase their total acreage to 11,966. The change is attributable to the recent acquisitions of several parcels by the Reserve state agency, totaling 110 acres. All of the proposed additions are owned by the Washington Department of Ecology and will be managed for long-term protection and conservation value. These parcels have high ecological value and will enhance the Reserve’s ability to provide increased opportunities for research, education, and stewardship. The revised Management Plan will serve as the guiding document for the expanded 11,966 acre Padilla Bay Reserve. View the Padilla Bay, Washington Reserve Management Plan at http://www.padillabay.gov/pdfs/ManagementPlan_2016-2020.pdf.

The impacts of the revised management plan have not changed and the initial Environmental Impact Statement (EIS) prepared at the time of designation is still valid. NOAA determined that the revision of the management plan will not have a significant effect on the human environment and therefore qualifies for a categorical exclusion under NOAA Administrative Order 216-6. An environmental assessment will not be prepared.

FOR FURTHER INFORMATION CONTACT: Bree Turner at (206) 526-4641 or Erica Seiden at (301) 563-1172 of NOAA’s National Ocean Service, Office for Coastal Management, Stewardship Division, 1305 East-West Highway, N/ORM5, 10th Floor, Silver Spring, MD 20910.

Dated: July 14, 2016.

John King,
Deputy Director, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration.
