

should assist in preventing confusion with regard to the proper nomenclature for this particular active ingredient in the future. EPA does not believe the change from “*fumosoroseus*” to “*fumosorosea*” will cause confusion among the public as there is a clear history linking the first term to the second and because the names refer to the same microbe.

V. Statutory and Executive Order Reviews

This action establishes a tolerance exemption under FFDCA section 408(d) in response to a petition submitted to EPA. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled “Regulatory Planning and Review” (58 FR 51735, October 4, 1993). Because this action has been exempted from review under Executive Order 12866, this action is not subject to Executive Order 13211, entitled “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001), or Executive Order 13045, entitled “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997). This action does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, nor does it require any special considerations under Executive Order 12898, entitled

“Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations” (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under FFDCA section 408(d), such as the tolerance exemption in this action, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply.

This action directly regulates growers, food processors, food handlers, and food retailers, not States or tribes. As a result, this action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4). As such, EPA has determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, EPA has determined that Executive Order 13132, entitled “Federalism” (64 FR 43255, August 10, 1999), and Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR 67249, November 9, 2000), do not apply to this action. In addition, this action does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act (UMRA) (2 U.S.C. 1501 *et seq.*).

This action does not involve any technical standards that would require EPA’s consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note).

VI. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Hazardous Chemical Reporting; Community Right-to-Know; Revisions to Hazard Categories and Minor Corrections; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; technical amendment, correction.

SUMMARY: The Environmental Protection Agency (EPA or the Agency) issued a final rule in the **Federal Register** on June 13, 2016 (81 FR 38104) amending its hazardous chemical reporting regulations. That document inadvertently omitted the hazard “serious eye damage or eye irritation” in § 370.66 under the definition of “health hazard”. This action corrects that definition.

DATES: *Effective Date:* This final rule is effective July 21, 2016.

Compliance Date: The compliance date is January 1, 2018.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–HQ–SFUND–2010–0763. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available,

SUPPLEMENTARY INFORMATION: EPA issued a final rule in the **Federal Register** of June 13, 2016 (81 FR 38104) amending its hazardous chemical regulations due to the changes in the Occupational Safety and Health Administration (OSHA) Hazard Communication Standard (HCS). The final rule inadvertently omitted the hazard “serious eye damage or eye irritation” in § 370.66 under the definition of “health hazard”. This action is being issued to correct the omitted hazard in 40 CFR 370.66, which contains the definitions of the key words used in 40 CFR part 370. Specifically, under the definition of “hazard category,” EPA inadvertently omitted the hazard, “serious eye damage or eye irritation” under the definition of “health hazard.” This document corrects this error by adding the hazard, “serious eye damage or eye irritation” in 40 CFR 370.66 under the definition of “health hazard.”
