BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Operations Specifications, Part 129 Application**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The FAA assesses the information collected and issues

operations specifications to foreign air carriers. These operations specifications assure the foreign air carrier's ability to navigate and communicate safely within the U.S. National Airspace System.

DATES: Written comments should be submitted by August 22, 2016.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the Desk Officer, Department of Transportation/FAA, and sent via electronic mail to oira_submission@omb.eop.gov, or faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Ronda Thompson at (202) 267-1416, or by email at: Ronda.Thompson@faa.gov.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0749.

Title: Operations Specifications, Part 129 Application.

Form Numbers: There are no FAA forms associated with this collection.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on May 3, 2016 (81 FR 26610). There were no comments. The final rule published in 2013, clarified and standardized the rules for applications by foreign air carriers and foreign persons for operations specifications issued under 14 CFR part 129 and established standards for amendment, suspension and termination of those operations specifications. The final rule also applied to foreign air carriers and foreign persons operating U.S.-registered aircraft in common carriage solely outside the United States. This action was necessary to update the process for issuing operations

specifications, and it established a regulatory basis for current practices, such as amending, terminating, and suspending operations specifications.

Respondents: Approximately 25 new applicants annually.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 3 hours.

Estimated Total Annual Burden: 75 hours.

Issued in Washington, DC, on July 13, 2016.
