

Total estimated burden: 48,000 hours (rounded) (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$5,960,000 (per year), which includes \$1,010,000 in either annualized capital/startup or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in respondent labor hours in this ICR from the most recently approved ICR. This is due to assuming all existing sources will have to re-familiarize with the regulatory requirements each year. Additionally, there is a small decrease in the total capital and O&M cost due to the rounding of all calculated values to three significant digits.

Acting Director, Collection Strategies Division.
