

should apply to “Subpart A Configurations made and distributed by or on behalf of UMG and WMG” and, in the Judges’ discretion, to other licensees. Motion at 3.

Section 801(b)(7)(A) of the Copyright Act authorizes the Judges to adopt rates and terms negotiated by “some or all of the participants in a proceeding at any time during the proceeding” provided they are submitted to the Judges for approval. This section provides that Judges shall provide notice and an opportunity to comment on the agreement to (1) those that would be bound and (2) participants in the proceeding that would be bound by the terms, rates, or other determination set by the agreement. See section 801(b)(7)(A). The Judges may decline to adopt the agreement as a basis for statutory terms and rates for participants not party to the agreement if any participant objects and the Judges conclude that the agreement does not provide a reasonable basis for setting statutory terms or rates. *Id.*

If the Judges adopt rates and terms reached pursuant to a negotiated settlement, those rates and terms are binding on all copyright owners of musical works and those using the musical works in the activities described in the proposed regulations.

Proposed Adjustments to Rates and Terms

In publishing the parties’ proposed rates and terms, the Judges are making the requested change in the cross reference because it is clearly outdated. The text of the section it refers to merely says “reserved.” In addition, the Judges propose adding the dates of the five-year period to the “General” section in order to specify the applicable dates of the rates and terms.

In the event the Judges determine not to adopt the proposed regulations for all copyright owners of musical works licensed under section 115 for the making or distributing of physical or digital phonorecords, the parties have proposed the following revised definition of *licensee*², which would make the rates in the partial settlement applicable only to “Subpart A Configurations made and distributed by or on behalf of [licensees] UMG and WMG”:

Licensee is Capitol Christian Music Group, Inc., Capitol Records, LLC, UMG Recordings, Inc., Warner Music Inc., any of their

respective successors, and any entity controlling, controlled by, or under common control with any such entity, when it has obtained a compulsory license under 17 U.S.C. 115, and the implementing regulations, to make and distribute phonorecords of a nondramatic musical work, including by means of a digital phonorecord delivery.

The Judges solicit comments on whether they should adopt the proposed regulations, including the change in the cross reference, as statutory rates and terms relating to the making and distribution of physical or digital phonorecords of nondramatic musical works for the participants that submitted the Motion. In addition, the Judges seek comment on whether they should apply the rates and terms in the partial settlement to all copyright owners and licensees and whether they should specify the five-year period in the regulation.

Comments and objections must be submitted no later than August 24, 2016.

SUPPLEMENTARY INFORMATION:

I. Why is the EPA issuing this proposed rule?

This document proposes to take action on amendments to the National Emission Standards for Hazardous Pollutants for the Portland Cement Manufacturing Industry. We have published a direct final rule to amend 40 CFR part 63, subpart LLL by correcting an inadvertent error and revising the testing and monitoring requirements for HCl in the “Rules and Regulations” section of this **Federal Register** because we view this as a noncontroversial action and anticipate no adverse comment. We have explained our reasons for this action in the preamble to the direct final rule.

If we receive no adverse comment, we will not take further action on this proposed rule. If we receive adverse comment on a distinct portion of the direct final rule, we will withdraw that portion of the rule and it will not take effect. In this instance, we would address all public comments in any

subsequent final rule based on this proposed rule.

If we receive adverse comment on a distinct provision of the direct final rule, we will publish a timely withdrawal in the **Federal Register** indicating which provisions we are withdrawing. The provisions that are not withdrawn will become effective on the date set out in the direct final rule, notwithstanding adverse comment on any other provision. We do not intend to institute a second comment period on this action. Any parties interested in commenting must do so at this time.

The regulatory text for this proposal is identical to that for the direct final rule published in the “Rules and Regulations” section of this **Federal Register**. For further supplementary information, the detailed rationale for this proposal and the regulatory revisions, see the direct final rule published in the “Rules and Regulations” section of this **Federal Register**.
