Abstract: The affected entities are subject to the General Provisions of the NESHAP (40 CFR part 63, subpart A), and any changes, or additions to the Provisions are specified at 40 CFR part 63, subpart HHHHH. Owners or operators of the affected facilities must submit initial notification reports,

performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Form Numbers: None.

Respondents/affected entities:

Facilities that manufacture a miscellaneous coating.

Respondent's obligation to respond:

Mandatory (40 CFR part 63, subpart HHHHH).

Estimated number of respondents: 44 (total).

Frequency of response: Initially, occasionally and semiannually.

Total estimated burden: 55,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$6,690,000 (per year), which includes \$928,000 in either annualized capital/startup or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in respondent burden in this ICR from the most recently approved ICR. This is due to a decrease in the respondent universe. For this ICR, we have updated the estimated number of respondents based on information obtained from industry consultation. This results in a decrease in the labor hours, O&M costs, and total number of responses.

Acting Director, Collection Strategies Division.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR, docket number EPA-HQ-OW-2004-0015. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The Clean Water State Revolving Funds (CWSRF) were established by the 1987 amendments to the Clean Water Act (CWA) as a financial assistance program for a wide range of wastewater infrastructure and

other water quality projects. The 1987 amendments added Title VI to the CWA, enabling EPA to provide grants to all 50 states and Puerto Rico to capitalize CWSRFs. The CWSRFs can provide loans and other forms of assistance for a wide array of projects, including construction of wastewater treatment facilities, green infrastructure projects, agricultural best management practices, and water and energy efficiency improvements. Eligible borrowers of CWSRF funding range from municipalities to nonprofit organizations and other private entities. Recently, Title VI of the CWA was amended in 2014 by the Water Resources Reform and Development Act (WRRDA). Additional information about the CWSRFs is available at <http://www.epa.gov/cwsrf/learn-about-clean-water-state-revolving-fund-cwsrf>.

Form Numbers: None.

Respondents/affected entities: Entities affected by this action are state environmental departments, and/or finance agencies responsible for operating the CWSRFs and eligible CWSRF borrowers.

Respondent's obligation to respond: Required to obtain or retain a benefit per Title VI of CWA as amended by WRRDA.

Estimated number of respondents: 51 state environmental departments and/or finance agencies (per year); 393 eligible CWSRF borrowers (per year)

Frequency of response: Varies by requirement (*i.e.*, quarterly, semi-annually and annually)

Total estimated burden: 57,376 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$6,074,741 (per year), including \$2,928,100 in non-labor costs.

Changes in Estimates: This renewal adds two information collections activities not included in the previous version of the ICR. Specifically, the renewal includes the additional burden associated with the EPA requirement that the CWSRFs submit data into the CWNIMS and CBR databases on a recurring basis. The renewal also reflects the additional burden related to the recently released public awareness policy, directing CWSRF borrowers that receive federal funds to publicize EPA's role in funding the projects.

Though these information collection activities add additional burden, the total estimated reporting burden under this renewal is significantly lower compared to the previously approved ICR. The estimate of the annual burden has been decreased by 748,471 hours while the total annual cost burden has been decreased by \$17,744,006. This

significant revision is due to the removal of the burden associated with CWSRF applications and ongoing ARRA reporting.
