Proposed Revisions to the FR Y–14Q

For reports as-of December 31, 2016, the Board proposes adding a new column to the FR Y–14Q Schedule B.1 (Securities 1—Main Schedule) to collect the price of the security to more accurately collect price information and thereby enhance supervisory modeling. Because this information is believed to be readily available, the Board estimates this revision would impose minimal additional burden while improving the ability to use these data.

Proposed Revisions to the FR Y–14M

Schedule B (Securities)

For reports as-of December 31, 2016, the Board proposes modifying the definition of Item 62, Gross Charge-off—Amount—Current month to reflect the intended method of reporting the item and in response to industry comments. The definition would be modified to indicate that all gross charge-offs must be reported regardless of whether they are from purchased or impaired loans by eliminating the reference to allowance for loan and lease losses (ALLL).

Robert dev'V. Frierson, Secretary of the Board.

Request for Nominations of Candidates To Serve on the Advisory Committee to the Director, Centers for Disease Control and Prevention (ACD, CDC)

The Centers for Disease Control and Prevention (CDC) is soliciting nominations for possible membership on the ACD, CDC. ACD, CDC consists of 15 experts in fields related to health policy, public health, global health, preparedness, preventive medicine, the faith-based and community-based sector, and allied fields, who are selected by the Secretary of the U.S. Department of Health and Human Services (HHS). The committee advises the HHS Secretary and the CDC Director concerning policy and broad strategies that will enable CDC to fulfill its mission of protecting health through health promotion, prevention, and preparedness. The committee recommends ways to prioritize CDC’s activities, improve results, and address health disparities. It also provides guidance to help CDC work more effectively with its various private and public sector constituents to make health protection a practical reality.

Nominations are being sought for individuals who have the expertise and qualifications necessary to contribute to accomplishment of the committee’s objectives. Nominees will be selected by the HHS Secretary or designee from authorities knowledgeable in the fields of public health as well as from the general public. Federal employees will not be considered for membership. Members may be invited to serve for terms of up to four years.

The U.S. Department of Health and Human Services policy stipulates that committee membership be balanced in terms of points of view represented and the committee’s function. Consideration will be given to a broad representation of geographic areas. Appointments shall be made without discrimination on the basis of age, race, ethnicity, gender, sexual orientation, gender identity, HIV status, disability, and cultural, religious, or socioeconomic status. Nominees must be U.S. citizens and cannot be full-time employees of the U.S. Government. Current participation on federal workgroups or prior experience serving on a federal advisory committee does not disqualify a candidate; however, HHS policy is to avoid excessive individual service on advisory committees and multiple committee memberships. Committee members are Special Government Employees, requiring the filing of financial disclosure reports at the beginning and annually during their terms. CDC reviews potential candidates for ACD, CDC membership each year and provides a slate of nominees for consideration to the Secretary of HHS for final selection. HHS notifies selected candidates of their appointment near the start of the term in July 2017 or as soon as the HHS selection process is completed. Note that the need for different expertise varies from year to year and a candidate who is not selected in one year may be reconsidered in a subsequent year.

Nominees must be U.S. citizens and cannot be full-time employees of the U.S. Government. Candidates should submit the following items:
