

guidance and expectations contained in recent supervisory letters, notably SR Letter 15–18. SR Letter 15–18 outlines expectations regarding a firm's risk management infrastructure and strength of associated processes.

In order to capture the information surrounding the risk management infrastructure and processes as outlined in SR Letter 15–18, the Board proposes adding two sub-schedules to the FR Y–14A Schedule E (Operational Risk) and modifying the supporting documentation requirements for this schedule effective with the reports as-of December 31, 2016. First, new sub-schedule E.2, Material Risk Identification, would collect information on a firm's material operational risks included in loss projections based on their risk management framework, a component of risk management emphasized in SR Letter 15–18. Second, new sub-schedule E.3, Operational Risk Scenarios, would collect a firm's operational risk scenarios included in the BHC Baseline and BHC Stress projections, a fundamental element of the framework. Finally, the Board recommends updating the requirements for supporting documentation and modifying certain terminology, definitions, and references to align with SR Letter 15–18.

Certain information related to the previous methodology are no longer necessary to collect given the aforementioned change in guidance, resulting in the proposed removal of these items and updating of associated terminology. Sub-schedule E.1 (BHC Operational Risk Historical Capital) would be removed as this schedule pertains to Advanced Measurement Approaches (AMA) methodology and these data are no longer necessary. This change in methodology also results in the removal of two associated columns on the FR Y–14A Schedule A.6 (Operational Risk Scenario Inputs and Projections): Type of Data and Brief Description. References to previous methodology would be updated, including changing the name of a column on the FR Y–14A Schedule A.6 (Operational Risk Scenario Inputs and Projections) from Units of Measure to Risk Segment. These changes would also be effective with the report as-of December 31, 2016.

Proposed Revisions to the FR Y–14Q

The proposed revision to the FR Y–14Q consists of adding an item to more accurately collect information that is currently derived. This proposed change would allow for more accurate and consistent reporting of information with

minimal anticipated burden on respondents.

Schedule B (Securities)

For reports as-of December 31, 2016, the Board proposes adding a new column to the FR Y–14Q Schedule B.1 (Securities 1—Main Schedule) to collect the price of the security to more accurately collect price information and thereby enhance supervisory modeling. Because this information is believed to be readily available, the Board estimates this revision would impose minimal additional burden while improving the ability to use these data.

Proposed Revisions to the FR Y–14M

Schedule D (Credit Card)

For reports as-of December 31, 2016, the Board proposes modifying the definition of Item 62, Gross Charge-off Amount—Current month to reflect the intended method of reporting the item and in response to industry comments. The definition would be modified to indicate that all gross charge-offs must be reported regardless of whether they are from purchased or impaired loans by eliminating the reference to allowance for loan and lease losses (ALLL).
