

construct constrains our ability to timely address a flawed standard, which could actually delay implementation of the protections the Commission seeks to put in place.

Given the realities of the standards development and approval process, we are likely years away from a supply chain standard being implemented, even under the aggressive schedule contemplated in the order. I believe that the Commission should endeavor to provide as much advance guidance as possible before mandating the development of a standard, to increase the likelihood that NERC develops a standard that will be satisfactory to the Commission and reduce the need for a remand. I worry that the limited process that preceded the Final Rule and the expedited timetable will make it extremely difficult for NERC to file a standard that the Commission can cleanly approve. Had the Commission committed itself to conducting adequate outreach, I believe we could have mitigated the likelihood of that outcome, and more effectively and promptly addressed the supply chain threat in the long term. "Delaying" action for a few months thus would, in the long run, lead to prompt and stronger protection for the grid.

II. Conclusion

The choice the Commission faces today on supply chain risk management is not between action and inaction. Rather, given the importance of this issue, I believe that more considered action and a more developed Commission order, even if delayed by a few months, is better than a quick decision to "do something." Ultimately, an effective, auditable, and enforceable standard on supply chain management will require thoughtful consideration of the complex challenges of addressing cybersecurity threats posed through the supply chain within the structure of the FERC/NERC reliability process. In my view, the Commission gains very little and does not meaningfully advance the security of the grid by proceeding straight to a Final Rule, rather than taking the time to build a record to support a workable standard.

Accordingly, I respectfully dissent.

Cheryl A. LaFleur,

Commissioner.

BILLING CODE 6717-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA-2016-N-0011]

21 CFR Chapter I

Change of Address; Technical Amendment

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA or we) is amending our regulations to reflect a change in the address for the Center for Food Safety and Applied Nutrition (CFSAN). This action is editorial in nature and is intended to improve the accuracy of our regulations.

DATES: This rule is effective July 29, 2016.

FOR FURTHER INFORMATION CONTACT: John Reilly, Center for Food Safety and Applied Nutrition (HFS-024), Food and Drug Administration, 5001 Campus Dr., College Park, MD 20740.

SUPPLEMENTARY INFORMATION: We are amending our regulations in 21 CFR parts 1, 5, 70, 71, 73, 80, 100, 101, 102, 106, 107, 108, 109, 110, 112, 117, 118, 130, 161, 170, 171, 172, 173, 175, 176, 177, 178, 180, 181, 184, 189, 190, 211, 507, 701, 710, 720, and 1250 to reflect a change in the address for CFSAN. The street address listed currently in our regulations for CFSAN is 5100 Paint Branch Pkwy., College Park, MD 20740. The street has been renamed and the street number has been changed; the new street address is 5001 Campus Dr., College Park, MD 20740. Consequently, we are amending our regulations to reflect the new street address.

Publication of this document constitutes final action on these changes under the Administrative Procedure Act (5 U.S.C. 553). Notice and public procedure are unnecessary because we are merely updating the street address for CFSAN.

BILLING CODE 4164-01-P

DEPARTMENT OF THE INTERIOR

Office of Natural Resources Revenue

30 CFR Parts 1206 and 1210

[Docket No. ONRR-2014-0001; DS63642000 DR2PS0000.CH7000167D0102R2]

Amendments to Designated Areas

AGENCY: Office of the Secretary, Office of Natural Resources Revenue (ONRR), Interior.

ACTION: Final rule.

SUMMARY: ONRR convened two technical conferences on November 20, 2015 to discuss amending the boundaries of four of the designated areas it uses to calculate the index-based major portion prices in its regulations. At the technical conferences, the participants discussed issues regarding the appropriate boundary line between the North Fort Berthold and South Fort Berthold Designated Areas and adding additional counties to one or both of the two designated areas in the Uintah and Ouray Reservation.

DATES: *Effective:* September 1, 2016.

FOR FURTHER INFORMATION CONTACT: Elizabeth Dawson, ONRR, telephone at (303) 231-3653, or email to lisa.dawson@onrr.gov.

SUPPLEMENTARY INFORMATION: With this final rule, ONRR amends the four designated areas to define them as follows:

1. North Fort Berthold—all lands within the Fort Berthold Reservation boundary north of the Missouri River, including the Turtle Mountain public domain lease lands north of the Missouri River that the Fort Berthold Agency of the Bureau of Indian Affairs (BIA) administers, with the dividing line of the Missouri River being the county lines that follow the Missouri River.

2. South Fort Berthold—all lands within the Fort Berthold Reservation boundary south of the Missouri River, including the Turtle Mountain public domain lease lands south of the Missouri River that the Fort Berthold Agency of the BIA administers, with the dividing line of the Missouri River being the county lines that follow the Missouri River.

3. Uintah & Ouray—Emery, Uintah, and Grand Counties.

4. Uintah & Ouray—Duchesne, Wasatch, and Carbon Counties.

Under the new Indian Oil Valuation Amendments to 30 CFR 1206.54 (80 FR 24794 dated May 1, 2015), ONRR uses designated areas to calculate index-based major portion prices for lessees to comply with the major portion provisions in their leases. Designated areas are those areas ONRR identifies as unique based on their location and the crude type produced from their respective Indian lands.

When ONRR proposed the new Indian Oil Valuation Amendments, it proposed sixteen initial designated areas. Generally, these designated areas were the Indian reservation boundaries. However, there were five designated areas which were not the reservation boundaries: Oklahoma; North Fort Berthold; South Fort Berthold; Uintah & Ouray: Uintah and Grand Counties; and Uintah and Ouray: Duchesne County.

Under the new Indian Oil Valuation Amendments, to modify or change an existing designated area, ONRR must convene a technical conference. In implementing the new Indian Oil Valuation Amendments, ONRR discovered two potential issues. First, the preamble describes the dividing line between the North Fort Berthold Designated Area and the South Fort Berthold Designated Area as the Little Missouri River. Second, ONRR found at
