

CFTC staff estimates of the hour burdens associated with section 162.30 include the one-time burden of complying with this section for newly-formed CFTC-regulated entities, as well as the ongoing costs of compliance for all CFTC-regulated entities. With respect to the one-time burden hours, staff estimates that each newly-formed financial institution or creditor would incur a burden of 2 hours to conduct an initial assessment of covered accounts. Staff estimates that approximately 572 CFTC-regulated financial institutions and creditors are newly formed each year, and the total estimated one-time burden to initially assess covered accounts is therefore 1,144 hours. Staff also estimates that each financial institution or creditor that maintains covered accounts would incur an additional initial burden of 29 hours to develop and obtain board approval of a Program and hours to train the staff of the financial institution or creditor. Staff estimates that approximately 47¹ CFTC-regulated financial institutions and creditors that maintain covered accounts are newly formed each year, and thus the total estimated one-time burden to develop and obtain board approval of a Program and train staff is 1,363 hours. Thus, the total initial estimated burden for all newly-formed CFTC-regulated entities is 2,507 hours (1,144 hours + 1,363 hours).

With respect to ongoing annual burden hours, CFTC staff estimates that each financial institution or creditor would incur a burden of 2 hours to periodically assess whether it offers or maintains covered accounts. Staff estimates that there are approximately 3,956 CFTC-regulated entities that are either financial institutions or creditors, and the total estimated annual burden to

periodically assess covered accounts is therefore 7,912 hours. Staff also estimates that each financial institution or creditor that maintains covered accounts would incur an additional annual burden of 4 hours to prepare and present an annual report to the board and 2 hours to periodically review and update the Program. Staff estimates that there are approximately 47 CFTC-regulated entities that are financial institutions or creditors that offer or maintain covered accounts, and thus the total estimated additional annual burden for these entities is 282 hours. Thus, the total ongoing annual estimated burden for all CFTC-regulated entities is 8,194 hours (7912 hours + 282 hours).

The collections of information required by section 162.32 will apply only to CFTC-regulated entities that issue credit or debit cards. CFTC staff understands that CFTC-regulated entities generally do not issue credit or debit cards, but instead may partner with other entities, such as banks, that issue cards on their behalf. These other entities, which are not regulated by the CFTC, are already subject to substantially similar change of address obligations pursuant to other federal regulators' identity theft red flags rules. Therefore, staff does not expect that any CFTC-regulated entities will be subject to the information collection requirements of section 163.32, and accordingly, staff estimates that there is no hour burden related to section 162.32 for CFTC-regulated entities.

In total, CFTC staff estimates that the aggregate annual information collection burden of part 162 subpart C is 10,701 hours (2,507 hours + 8,194 hours). This estimate of burden hours is made solely for the purposes of the Paperwork Reduction Act and is not derived from a quantitative, comprehensive, or even representative survey or study of the burdens associated with Commission rules and forms. Compliance with part 162 subpart C, including compliance with the information collection requirements thereunder, is mandatory for each CFTC regulated entity that qualifies as a "financial institution" or "creditor" under part 162 subpart C (as discussed above, certain collections of information under part 162 subpart C are mandatory only for financial institutions or creditors that offer or maintain covered accounts).

¹ Based on a review of new registrations typically filed with the CFTC each year, CFTC staff estimates that approximately 6 futures commission merchants ("FCMs"), 83 introducing brokers ("IBs"), 282 commodity trading advisors ("CTAs"), and 198 commodity pool operators ("CPOs") are newly formed each year, for a total of 572 entities. CFTC staff also has observed that approximately 50 percent of all CPOs are dually registered as CTAs. With respect to RFEDs, CFTC staff has observed that all entities registering as RFEDs also register as FCMs. Based on these observations, CFTC has determined that the total number of newly-formed financial institutions and creditors is 470 (569-99 CPOs that are also registered as CTAs). There were no newly registered RFEDs, SDs, or MSPs. Each of these 470 financial institutions or creditors would bear the initial one-time burden of compliance. Of the total 470 newly-formed entities, staff estimates that all of the FCMs are likely to carry covered accounts, 10 percent of CTAs and CPOs are likely to carry covered accounts, and none of the IBs are likely to carry covered accounts, for a total of 47 newly-formed financial institutions or creditors carrying covered accounts that would be required to conduct an initial one-time burden of compliance with subpart C of part 162.
