If the verified notice contains false or misleading information, the exemption is void ab initio.

M&E has filed a combined environmental and historic report that addresses the effects, if any, of the abandonment on the environment and historic resources. OEA will issue an environmental assessment (EA) by August 8, 2016. Interested persons may obtain a copy of the EA by writing to OEA (Room 1100, Surface Transportation Board, Washington, DC 20423-0001) or by calling OEA at (202) 245-0305. Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), M&E shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the line. If consummation has not been effected by filing of a notice of consummation by August 3, 2017, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

Board decisions and notices are available on our Web site at "WWW.STB.DOT.GOV."

³ The Board will grant a stay if an informed decision on environmental issues (whether raised by a party or by the Board's Office of Environmental Analysis (OEA) in its independent investigation) cannot be made before the exemption's effective date. See *Exemption of Out-of-Serv. Rail Lines*, 5 I.C.C. 2d 377 (1989). Any request for a stay should be filed as soon as possible so that the Board may take appropriate action before the exemption's effective date.

⁴ Each OFA must be accompanied by the filing fee, which is currently set at \$1,600. See 49 CFR 1002.2(f)(25).

Decided: July 29, 2016.

[Docket Number FRA-2016-0071]

**Notice of Application for Approval of
Discontinuance or Modification of a
Railroad Signal System**

In accordance with Part 235 of Title 49 Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that by a document dated July 11, 2016, the Georgia and Florida Railway LLC (GFR) petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of a signal system. FRA assigned the petition Docket Number FRA-2016-0071.

Applicant: Georgia and Florida Railway LLC, Mr. Jason Scott, Vice President Signals and Communications, 1019 Coastline Avenue, Albany, GA 31705.

GFR seeks approval of the discontinuance of the automatic interlocking at Darrow Jct., GA. The discontinuance will consist of removal of signals on the former Seaboard Coast Line Railroad (SCLRR), at Milepost (MP) 695 and MP 697.3; removal of signals from the former Georgia Northern Railroad (GNR) at MP 61.7 and MP 63.3; and removal of interlocking controls and signals at the diamond at Darrow Jct. on the Albany Subdivision.

These changes are being proposed by GFR, which operates on both of the tracks at the interlocking, due to the system being outdated. The former SCLRR line is now being used for the temporary storage of cars and the former GNR line is a through track. Gates and derails will be placed on the former SCLRR line to control movements over the diamond.

SUPPLEMENTARY INFORMATION:

I. *Overview:* Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR part 556), MNA submitted a petition for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential as it relates to motor vehicle safety.

This notice of receipt of MNA's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

II. *Tires Involved:* Affected are approximately 186 MNA Uniroyal Tiger Paw AWP II size P215/70R15 97T passenger car tires that were manufactured between January 10, 2016 and January 13, 2016.

III. *Noncompliance:* MNA explains that two of the digits in the tire identification number (TIN) that identify the week and year of manufacture were inadvertently switched. This resulted in the tires, which were manufactured in the second week of 2016, being molded with a manufacturing date of "0126" rather than the correct marking of "0216,"
